

**Midcoast Hearing**

Independent. Personal.

**Midcoast Hearing** is an Audiology, Hearing Aid and Cochlear Implant Centre of Excellence

Midcoast Hearing is a NEW audiology clinic centrally located in TAREE. We offer the following services:

- Children testing 8 months to 3 years
- Children testing 3 years - 6 years
- Auditory Processing Disorder testing for children 7 years and up
- Adult Testing
- Fit and Prescribe Hearing aids for pensioners and private patients
- Cochlear Implant Mapping (Naomi is endorsed by Hearing Implants Australia)

### Our Audiologist

Naomi has practiced audiology for 15 years. She has worked in ALL areas of audiology and provides a truly holistic approach to the communication needs of her patients. She has worked extensively with both paediatrics and complex adults. Our patients enjoy the professionalism this experience brings.

### Referral?

For **children** and **adults** to access Medicare, a Medicare referral form is required. A GP would complete a Chronic Disease Management Plan.

People who have an **Aboriginal and Torres Strait Islander** descent, a GP would complete the Referral form for follow up allied health services under Medicare for people of Aboriginal or Torres Strait Islander descent.

Please note, for **SUDDEN HEARING LOSSES** please call the clinic immediately and we will see patients straight away. Sudden hearing losses can be treated within 72 hours of being noticed. If the loss is treated within this time frame, the hearing can improve. Our ENT specialists are happy to conduct Skype consultations through **Midcoast Hearing** and will work with you to provide the BEST patient care.
