

Teesdale Primary School Council News: 1 25th June 2019

Dear Parents, Carers, Students and Community Members,

Term two is nearly over and School Council wish all students and their families a safe and restive break.

This past month has seen the completion of a very successful and productive working bee involving a number of families. The Grade 5/6 students enjoyed their Phillip Island Adventure Camp and the feedback from camp staff, students, teachers and parents was very positive. The Life Ed van and Harold the Giraffe also visited and students were involved in discussions about cyber safety and friendships. Next term will see the Prep students joining the Grade 1 and 2 students for the Junior Swimming Program at Leisurelink.

The Parents Club has continued their wonderful job of raising funds that support our school through the Mother's Day Stall and the Spaghetti Lunch Day, which were both very successful and well supported by students and their families.

We also received a very strong response to our request for feedback about implementing a Healthy Eating Policy at TPS. We sincerely thank those who took the time to provide their thoughts about this policy as this allows us to build a healthy eating policy that reflects the views of our school community.

Enjoy the holidays.

Kind Regards,

Clare Morrison
School Council Member
