FOR STAFF

Nearly all of today's major innovation workshops and programs call on organizations to drive innovation. What they miss is that innovation comes from the personal creativity of individuals. And creativity doesn't require an advanced education or technical skills—all employees can be creative. Often, all they lack is a fitting mindset and the right skills.

This book brings how-to advice, tools, and techniques from two master innovators who have taught and worked with over half of all Fortune 500 companies.
