

Student Name: _____

Grade: _____ Date: _____

1. On “**MASTERCHEF**” last week, all 3 comperes – George (born 4/10/1978), Matt (18/12/1963) and Gary (12/2/1967) were sacked, or they resigned (no-one is quite sure which!). Who of the three is oldest, who is youngest, and what is the **TOTAL** of their ages now in years – in July, 2019?
2. Tuesday, July 30th is the “**INTERNATIONAL DAY OF FRIENDSHIP**”. What **FRACTION** of these emojis best show friendship:

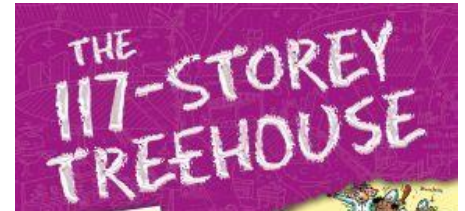

3. “**THE WIGGLES**” are planning a tour of Australia later this year and early next year, in November and December, 2019 and January, 2020. How many days are there altogether in those months?

4. At one school, a collection of “**Socks for Homeless**” was run for one 5-day week. Socks collected on the 5 days were 56 pairs on Monday, then 87 pairs, 125 pairs, 142 pairs and finally 139 pairs. How many pairs of socks were collected altogether?

5. In the Andy Griffith “**Treehouse**” series of books, the treehouses have this many storeys: 13, 26, 39, 52, 65, 78, 91, 104 and 117 storeys. What is the **DIFFERENCE** between the highest storeys number and the lowest?

6. A pair of old **NIKE** running shoes, one of the first pairs ever made by **NIKE**, was sold recently at an auction for \$624,858. So, how much was each of those shoes valued at? Would just one of those shoes sell for half that auction price? Why or why not?

7. Animal lover and entertainer Bindi Irwin turned 21 years old this month. In what year was she born?

(July).

8. Supporting a needy child overseas through World Vision costs \$50 per month. If 5 children’s families decide to combine to support one child, how much would each of those families donate each month?

9. **9. Open-ended Question:** If exactly half of the children in Meg’s class play after-school sport, how many children **MAY** be in Meg’s grade?
