

August 2020

Dear Greensborough College Community,

RE: Works notification

As you may be aware the Greensborough College is being upgraded.

The project will deliver new sports facilities with a pavilion, a natural turf AFL/cricket oval with a synthetic cricket pitch, a new synthetic soccer pitch, field lighting, synthetic turf cricket nets and a new car park. These new facilities will help provide world-leading education for the students at Greensborough College. The multipurpose spaces will also be available for the wider community to use outside of school hours and when not in use by community clubs.

We are also planning modernisation of Greensborough College including a new Science Block, General-Purpose Learning Areas with Library linked with a central pedestrian plaza and landscaping.

The construction works have already commenced and is expected to complete in stages. We expect the Sports facilities completed by mid 2021 and school buildings early 2022.

During early stages of construction, we will be removing a number of trees and shrubs in consultation with a professional arborist to ensure that the planned works are completed. However, we will be planting two trees for every tree removed according to the policy of the Department of Education. The design of our school incorporates landscaping to replace any loss of greenery and ensures the new building integrates with the neighbouring landscape.

If you have any queries or concern about the works, please contact me on telephone 9433-2666 or email greensborough.sc@education.vic.gov.au .

Yours sincerely,

Pauline Barker
PRINCIPAL
