

PHYSICAL EDUCATION

Term 2 Curriculum Letter 2024

This term, we will continue our focus on the main learning of **THE THREE C's: cooperation, communication, collaboration**. We will look at problem solving to gain successful outcomes for the small or large group. Each year level will use the THREE C's in different sports and minor games, continuing our learning and developing key fundamental motor skills.

In Term 1 our Term Theme was TEAMWORK. This term we will adopt the term theme of RESPECT. Looking at positive sportspersonship and stamping out bad sportsmanship. What does it look like? What does it sound like? Where do we look for positive sportsmanship?

We will also be having sports clinics in Term 2 to help consolidate our kicking skills, through the AFL VIC school programs, and our bounce and catch/throw skills through the Camberwell Dragons basketball school clinics.

<p style="text-align: center;"><u>Prep</u></p> 	<p>In Term 2, students will continue to develop their listening skills and play minor games to deepen their understanding of following rules and using equipment appropriately. The key fundamental movement skills of kick (dribble and pass), jump and bounce will also be introduced this term.</p>
<p style="text-align: center;"><u>Year 1/2</u></p> 	<p>In Term 2, students will refresh and undertake skills and games that require the development of kick, jump, punt and bounce. There is an emphasis on minor games that require a range of team work and thinking skills. We will look at how our interactions need to be positive by sharing, taking turns, following rules and showing honesty in games played.</p>

Year 3/4

Students will continue working on the skills and tactics required in games involving catch-throw and hand-foot and foot-eye coordination skills. They will be introduced to sports that use previously learnt fundamental motor skills. The focus sports for this term will be AFL, soccer, netball, basketball and kickball. We will investigate how to complete movement sequences such as a drop punt in AFL, a layup in basketball and changing ball speed and direction in soccer.

Year 5/6

Interschool Sports will commence in Week 5 in Netball, Soccer and AFL 9s. Each Friday morning, students will compete against other schools in these disciplines in hopes of school glory. Physical Education classes in Term 2 work towards developing skills and tactics that are required for a majority of sports focussing on winter sports such as AFL, soccer, netball, basketball and kickball. We will investigate playing different roles within teams both on and off the court such as scoring or time keeping.

It is important that the skills taught during Physical Education sessions are practised regularly at home, in the park and in a range of outside of school programs. Students are encouraged to enrol in AusKick, Ready Steady Go Kids, Netta, Kanga Cricket, Hot Shots tennis, Swim clubs and Aussie Hoops. Parents are asked to support and encourage their child/ren to spend more time outside playing with a range of balls and equipment and playing team sports rather than opt for electronic devices. It's social, fun and will benefit them physically, mentally and socially as they progress through school.

We look forward to an exciting term!

Matt O'Shea
