

Celebrating Specialist Day

Reflections by 5/6C

Jaxson

Specialist day was really fun! Sport activities were really enjoyable. I particularly liked the one where you bounced the ball on the net. The library activities where we had to partner up with a ½ was great and focused on digi tech skills. The best part was the crostoli and the pizza, That was yummy! And you can't forgot Luigi Zucchini, That was the best, really funny!

Thomas

Specialist Day was a blast! On the day, We had a sport class where we tried a wide variety of small activities like skipping, throwing the ball at a small spring net and making it go to the other person and more. Next we had an experienced african drumming activity where we learned about how to play the drums and play on each others drums! Our library activity was creating a costume for a bee bot robot and we could race it! After recess we had watercolour painting, then after lunch we had an Italian magician come to our school and show cool, fun and funny tricks! For lunch we had pizza and for recess we had crostolis! They were so good I could have eaten 2 boxes of crostalis and 4 pizzas! It was the best Specialist day in my life!

William

Specialist Day was thrilling as we got to do so many cool things such as drumming, sport rotations, and bee - bot skins.

I enjoyed drumming as we got to learn about the African culture and about how drums help them tell stories. I felt like my heart was beating really fast as the entire room filled up with excitement and cheerful vibes. I loved it and I hope to do it again. I also enjoyed the crosstoli and pizza that accompanied the day.

I feel like Specialist Day was a big turning point for this school and it was like Italian Day all over again. I would love to do it again.

Hugo

On Specialist Day I had a lot of fun drumming, sporting, coding and eating pizza. My favourite activity on specialist day was doing sport with Ms Tobin because we did activities with the 1/2's and it was really fun rotating around. My second favourite activity was the African drumming because we learned a lot about the African culture and how they sell and buy food, we even got to try with buying food and it was also really fun. My third favourite activity was the activity with the beebots, I think the activity was very creative because we could change a bee robot to whatever book character we wanted and we also got to code the beebots to go wherever we wanted them to go. Another awesome part about the day was at recess we got to eat crostoli and at lunch we got two slices of pizza and they were delicious.

Mia

Specialist day was full of excitement. There were loads of fun activities to do. We ate pizza and crostolis and the pizza was delicious with stringy, delicious mozzarella cheese. We had loads of fun and got to do so many different things. We even got to create our own bee bot covers with 1/2G and we got to do sport with 1/2 KG and we had an epic time. We played so many fun games and Ms Tobin was very nice as well. We got to experience a great Guarna drummer and he was amazing. We did activities like drumming songs and he even did a drumming song with my name in it and did lots of fun activities during that time. At the end of the day we experienced a magician named Luigi Zucchini and he was amazing, he made coins appear out of nowhere and made very, very, very cute pets appear out of nowhere. He did lots of optical illusions and it was an amazing show to watch. Overall I think that Specialist day was a fun and amazing day.

Izzy

I really liked specialist day because we got to have lots of fun experiences like the drumming class, bee bots, PE, pizza and crostoli lunch and to top it all off even a magic show. I liked the drumming class because Apeh the teacher taught us all about his home country which is South Africa and he told us he comes from Guarna. He also showed us the things he had to do when he was a kid and he showed us his traditional clothing. In library I loved getting to work with the 1/2s to create a bee bot character which was fun because we got to do something creative and in the end we got to code a bee bot. In sport we got to do a range of activities like scooter boards, skipping, velcro balls, trampoline, rebound net, elastics and more it was a good way to do exercise and have fun with people in our school. For recess we got a delicious treat a crostoli and at lunch we even got some delicious stringy hot and fresh pizza which was delicious.

Georgette

Specialist day was amazing it was so fun. I loved the drumming musician. His name was Gunna, he was astonishing. His technique was so cool the way he hit the drum and how he played the instruments. And at the end of the day the magician showcased his amazingly clever tricks. We ate pizza and crostoli and it was so good! I loved sports it was so much fun, we were in different rotations and all of them were creative and fun! I loved specialists day it was amazing.

Nectaria

On specialist day, I really enjoyed the magic show and also the delicious pizza that we got for lunch. I thought that the magic show was really inspiring and funny. It was a lovely day and all the activities were so much fun! Some of my favourite activities that we did on specialist day was the African Drumming and the sport activity that we did with Mrs. Tobin. I really appreciated the musician that came in and taught us a bunch of african songs on the drum. I also really loved playing a bunch of sport!

Specialist day was so much fun and I am so grateful that we got to have it!

Xavier

I really enjoyed doing the library activity with the 1/2s and making the beebot masks. Vince, Miles and I worked together and made a kookaburra mask. We only did a little bit but still put the mask on and coded the bot at random.

Luigi Zucchini was funny and cool. His tricks were amazing and I couldn't figure them out. His animals did well and nothing went wrong.

Lara

Specialist Day was a great day to remember how lucky we are to be able to experience so many different learning subjects. We're very lucky and grateful for all of those who contributed to the day.

I found all activities were extraordinarily fun. The drumming incursion was astonishing to learn about Apeh and his home place Ghana. I learnt a lot about his homeland as well as different instruments and styles of drumming.

For Recess, our attention was drawn to a delicious crostoli. Lunch was just as good... the pizza was delicious.

It was nice to finish the day off with a magic show! Luigi Zucchini was very entertaining to watch. He really stumped me on the Three Rope Mystery trick. Most importantly though, the bunnies, guinea pig and bird were absolutely adorable!

Alex

The day was a blast. At the start we had sport and with the 1/2s it was so fun, there was skipping, ball games, races. Then we were off to Performing Arts where there was someone who came from Ghana where he came and he helped us play the drums and also he played the kora which is a 21 string instrument from Africa and I think it sounded amazing. Then we went to library where we made little costumes for b bots and we had to program them to go on the track. At the end of the day we had a magician named Luigi Zucchini who did many tricks and jokes like when he made a dove appear out of nowhere.

Luke

Last week on Thursday it was specialist day, we had a great day for multiple reasons. First of all we got pizza for lunch along with a piece of crostoli for recess. At the start of the day we were heading off to the hall to collab with the 1/2 class to do some circus activities. Then we headed over to Mr Bodes class to meet the drummer who was amazingly talented.

Eli

Specialist day: My favorite thing about specialist day was the magic show because it was really funny. Some of the best things were when he would open things up like his wallet and his book and then they would breathe out fire. Some of the other things that happened in the magic show was when he went on the unicycle and he also had some animals like a dove, a bunny and 2 guinea pigs. Some other things we did was drumming with someone from Ghana in Africa. In library we got to decorate bee bots with the $\frac{1}{2}$ s. In sport we got to do rotations with the $\frac{1}{2}$ s again. And for recess we got crostoli and for lunch we got pizza.

Harrison

It was fun my favourite part was the magic show and for lunch we had pizza and I love pizza! I particularly loved the drumming. The beat of the drums all together were unbelievable. Sport rotations were so much fun and our recess treat of crostoli was a real treat!!! I had a great day!

GIORGIA

Specialists day was a blast! We engaged in lots of activities for all 4 specialists. PE was a fun little rotation. There were skipping ropes, a trampoline, ropes, catch its and more! After sport, we went to the performing arts room and we did some African drumming. This cool guy came and taught us some cool drumming tricks and it was so fascinating listening to his stories from Ghana in South Africa. We then went into the library and did a cool bee-bot activity with the 1/2's and drew a book character and stuck it on the bee-bots and coded our bots to move. After lunch was the Italian magic show. It was SOOOO cool and funny to watch. Super entertaining and I highly recommend for other schools out there to watch. And we had Pizza for lunch! Delicious!!!

Wade

On Thursday last week there was a special event named specialist day and all in the one day. Including unique activities which involved a brilliant musician from Ghana and an Italian magician. The magician performed a mind blowing trick where he popped a balloon and a bird came flying out.

Roman

My favourite part of Specialist Day was when we listened to African drumming and we got the opportunity to play the drum. I also enjoyed pretending to sell food, like the African teacher did as a child in the village.

Angus Chetwin

Overall I just loved specialist day, all the activities were so fun and inclusive of everyone's likings. Like all the sport, music, italian, and library activities that were not only fun but inclusive.

If I had to pick a favorite it would be hard because I do not know if I have a favorite, though I did love the drumming and learning about the ghana culture, drums and rituals.

But I can't leave out the food, the pizza was really good and the crostoli was ACE.
