

TAFE GIPPSLAND

Gain a competitive edge into a career in engineering

Start paving a pathway to a practical and real-world experience in engineering.

Specifically designed for those who want to get a head start in engineering fabrication or mechanical trades, our Certificate IV in Engineering allows you to enjoy the flexibility of studying part-time while you work. You never know, this may inspire you to move into the Bachelor of Engineering at university!

About our Certificate IV in Engineering (Pathway) MEM40119

Course overview:

You'll learn skills that apply to a wide range of engineering work including AutoCAD, Metallurgy, Welding, Oxy-Acetylene, the use of hand and power tools., computer numerically controlled (CNC) programming, fluid power, heavy fabrication and much more.

Location: Yallourn campus

Delivery: 6pm–9pm on Tuesdays and Thursdays
8am – 4pm on five Saturdays throughout the year

Now enrolling for 2024. Spaces are limited.
