

Dear Parents,

I am writing to provide you with information about Edrolo, a study program and exam resource we will be using across a range of VCE subjects in 2018.

We have used Edrolo with our VCE students this year (which means you may already have heard of it). Edrolo is the only comprehensive, premium, online, interactive video and exam simulation resource for the VCE and has been assessed as a fantastic resource for our VCE students. Edrolo is currently used by over 310 schools and 55,000 students in Victoria alone, and we are confident it is an extremely valuable investment, providing our students with a differentiated and targeted level of support as they prepare for their most important examinations.

What exactly is Edrolo?

Edrolo is an extensive study and exam revision resource crafted by outstanding VCE teachers (including exam assessors, textbook authors, and department heads). Edrolo is built in accordance with the VCAA Study Designs to guide students through their coursework during the year and final exam preparation.

Edrolo is broken up into two key elements:

- Theory Master: Interactive video courses mapped to each subject's Study Design and presented by proven expert teachers. Each subject's Theory Master has hundreds of videos and interactive quiz questions for students to learn from and test themselves on.
- Exam Master: Online simulated practice exams offering video solutions for every single exam question, incorporating unique insights and diagnostic study tools enabling students to identify and target their individual areas of weakness.

Sitting behind Edrolo are rich analytics that our teachers use to understand, in greater detail, the learning needs of students, and thereby be able to provide more targeted support than has ever been possible with traditional resources.

How do our students use Edrolo?

Our teachers guide students to make full use of Edrolo in a range of ways across the year, including:

- holiday homework;
- pre-class work;
- post-class consolidation;
- assessment preparation; and,
- exam revision.

If your child is enrolled in Units 3&4 Further Mathematics in 2018, they will be using Edrolo's textbook and extended digital resources, which integrates digital, online, and print resources to further optimise and support their learning.

What does Edrolo cost?

As a school subscribing to Edrolo we are able to secure preferred pricing for your son/daughter of \$27.50 (inc GST) per subject, or \$85 (inc GST) for the Further Mathematics textbook and digital resources. This compares very favourably with other resources, such as study guides (~\$30-\$40/subject) and private tuition (~\$40-\$100/hour).

Edrolo has been deemed an outstanding support resource by the College's leadership team, providing our students with the best opportunity to perform to their potential on their final examinations. Edrolo provides the most affordable and high-quality revision program available - it will help enormously to assist students to achieve their best possible ATAR.
