

Dads of Abbotsford First Get Together

Dads of Abbotsford
At Stomping Ground, Collingwood
Tuesday, 1 May 2018 2pm onwards

Dads Group Inc (DGI) has been working with new fathers and families for the past three years across Australia to identify ways to address family violence, isolation and male suicide through positive prevention programs.

Dads of Abbotsford aims to equip new fathers during their transition into parenthood with the skills, tools and networks that will enable them to succeed. We strive to build resilient, informed communities of new fathers and families.

Our hope is to network broadly to create many new Dads Groups where fathers with young children can meet regularly in their Local Government Areas and establish positive peer to peer learning and supportive environments.
