Dear Parents and Carers,

I am writing to let you know about changes to student reports.

The Department of Education has updated its student reporting policy to support a more consistent statewide approach to reporting student achievement and progress. The changes are intended to make reports clearer for parents and easier for teachers to prepare. Where comments are used, they provide plain English information about what a student has learned, and the progress they have made. The updated approach will also improve the consistency of information shared when students move between schools, particularly from primary to secondary school.

What's changing in our reports
Your child's report will illustrate their progress and achievements in each learning area and capability, showing:

- your child's achievement level in each learning area and capability for that semester. This will be rated against a 5-point scale.
- their progress since the last report
- a brief summary comment
- a general rating of your child's effort and conduct (primary)

How we'll keep in touch during the semester
During the semester, you'll get updates on your child's learning when:

- we hold parent/carer conferences to talk about achievement and progress. This will include an additional parent/carer conference early in Term 1 from 2027 and support families to handover information to their child's new teacher
- we reach out to you directly. We'll use phone calls, Compass and emails to share important achievements or concerns as we normally would

If you have any questions about these changes, please contact the school.
[If relevant: If you need an interpreter to call the school, please use the details available at:

Guide for Families: How to use an interpreter to contact your school

Yours sincerely,

Melissa Maccora
Principal
Moriac Primary School
