

# MAINTENANCE WORKS SCORESBY SECONDARY COLLEGE

24 November 2019

The Victorian School Building Authority will continue to assist Scoresby Secondary College with infrastructure upgrades and planned maintenance works to ensure all affected areas are returned to normal operations.

## RECTIFICATION AND UPGRADE WORKS

The Victorian School Building Authority (VSBA) has been working closely with Scoresby Secondary College since January 2018 to address structural damage which appeared in perimeter brickwork, in various areas of the school's buildings.

The VSBA's Planned Maintenance Program allocated funding to the school in November 2018 to address structural damage in some specific areas in the North and South Wings, to rectify cracking and movement in the perimeter walls.

As a result of subsequent investigations which were part of this process, the VSBA has extended the scope of works. This will address the entire perimeter wall systems to the North and South main building wings, and include repair works to the Resource Centre.

## Next Steps

The VSBA has commenced works that includes the demolition and replacement of the brickwork perimeter walls to the North and South Wings and repairs to the Resource Centre.

The brick cladding will be replaced with a new, light weight cladding system providing improved amenity for the expanding school community as well as an improved appearance of the school buildings.

Works are being carried out on sections of each building at a time and are expected to continue for the next 12 months.

## CONTACT

If you have any questions about these works, you may contact the VSBA on 1800 896 950 or [vsba@edumail.vic.gov.au](mailto:vsba@edumail.vic.gov.au).
