# What Our Teachers Say

“We took our first Toorak College RACV Great Victorian Bike ride team away in 2004 which consisted of 6 girls, 2 staff and 1 parent. In 2013, we had grown to a total of 53! That statistic in itself is testimony to the worth of this event for adolescent students and their parents. They return full of self-satisfaction, independence, resilience and flexibility. They have learned about commitment, respecting all manner of cyclists, determination appreciating and learned something of the geography this state has to offer. This is a realisation which is priceless and everlasting.”

*Teacher from Toorak College*
