

## 2021 Northern Bay College Leadership Structure

## NBC moved to a sub-school structure to further develop the 'One School – One Team' ethos; which emphasises the core business of Student Learning as a focus underpinned by a strong consistent well-being framework. The aim of this structure is to support the following elements:

- ❖ Increased consistency of practice across the college
- ❖ Clear lines of Leadership, management, operations and strategic planning
- ❖ Increased ability to provide opportunities for staff in relation to individual professional growth and collective efficacy of the college
- ❖ More equity based alignment of funding for staff capacity building and student development
- ❖ Provide greater equity, consistency and alignment of staff teams; and their corresponding collective capacities and skill sets across the college.
