MONDAY 12 MAY #14

BEHIND THE JOB: Clinical Trial Design Coordinator

What are their strengths?

- Organisational and research skills
- Ability to analyse medical data and statistics
- Attention to detail and problem-solving abilities
- Communication and project management skills

What do they do?

Clinical Trial Design Coordinators plan and manage clinical studies, ensuring they are conducted ethically and in compliance with medical regulations to test new treatments and medical advancements.

How do they get started?

Bachelor's degree in Biomedical Science, Pharmacy, or Public Health are common pathways into this field.
