

## WHAT'S BEEN HAPPENING AT

# O.S.H.C?

### Weeks full of magic and mystery

We have explored the meaning of mythology by doing heaps of arts and science experiments with children. They enjoyed the experiment on the rain, where they discovered how rain is formed and how back in time people used to believe that rain was formed by gods such as Tlaloc and Zeus.

Children developed their creativity and problem-solving skills by creating a maze for our control dragon.

Additionally, children shared their ideas about what a myth was, and some facts about the Kodomo Dragon while doing paper and pictures of Dragons.

We started to celebrate with children Halloween. Children were eager to make different creatures with Iron beads.

## HOLIDAY CARE
