INSPIRING FUTURE CAREERS

Adjuvant Event Services presents
School Summit 2026.

School Summit is a future-focused event for high school students, parents and teachers, exploring emerging industries – from AI and cybersecurity to the energy transition, sustainability, space, modern media, purpose-led careers and more.

Hear directly from young professionals in Perth's business and innovation community as they share what they do, how they got there, and the skills needed to thrive in modern careers.

Join us on 30 June at Murdoch University and be part of what's next in the future of work.

In partnership with Murdoch University.
