

Bricklaying Job Ready Program

Get job ready with training and industry experience, and join Western Australia's residential construction sector!

FREE for eligible students!

Pathway to a paid bricklaying apprenticeship, on-site employment, or further training in the building and construction industry

TAFE training + industry work placement

Over three weeks of training, you'll learn:

- » work safety practices;
- » how to use a range of construction equipment and tools; and
- » skills to work in a construction team.

During your four-day work placement, you will:

- » gain real, hands on construction industry experience; and
- » meet industry employers with apprenticeship and employment opportunities.

Opportunities for an apprenticeship

Complete the program, and you could:

- » be offered a bricklaying apprenticeship with your work placement employer;
- » be offered other employment opportunities within the residential construction sector; or
- » go on to complete further training.

HURRY! Places are filling fast!
