

## Here's what we covered:

- Devices can be used for so much more than just watching videos.
- We can use devices to connect, like video calling family or playing with friends.
- We can use devices to create, like a virtual world in a game or digital drawings.
- We can use devices to learn, like discovering how, what and why.

▶ Create,  
Connect, Learn

## Some conversation starters for home:

- Can you think of a way you used your device to be creative this week?
- What do you like doing on your device that makes you feel happy?
- What's a new activity you can try on your screen this week?
- Let's listen to the 'Create, Connect, Learn' song together.
