

### STEM ENGINEERING PATHWAYS

Students selected for this program have a passion for sciences and mathematics, and aspirations within the fields of science and engineering. They study a rigorous integrated science and engineering program within our highly successful STEM Racing program. Beginning in Year 7, our STEM Racing teams compete in state, national and international events, developing skills leading to tertiary sciences and engineering courses. Places in this program are limited and classes are small, enabling students to build teamwork, think creatively and develop their inter-disciplinary skills.

### STEM VET CENTRE OF EXCELLENCE

Charles Campbell College has engaged with industry, training organisations, businesses and universities to establish a STEM VET Centre of Excellence. The College is the largest provider of Vocational Education and Training (VET) in the east of Adelaide, and in 2025 is providing multiple classes in VET Engineering, Automotive Studies, Construction and Electro-technologies. Students selected to enter the Centre of Excellence have a determination to succeed in their chosen field.

### PERFORMING ARTS

Charles Campbell College students experience instruction across all performing arts disciplines – music, drama and dance. Our teachers are passionate, industry-experienced professionals committed to the development of young people within a unique and rigorous performing arts program. Our talented students perform regularly at school events, and have opportunities to perform at the Adelaide Fringe and other external events.

### SELECTIVE ENTRY AUSTRALIAN RULES FOOTBALL ACADEMY (ARFA)

Students selected for the Academy engage in a rigorous sports-based program of physical fitness, football related training, teamwork and personal growth. Entrants to the Academy are either skilled young footballers or talented young athletes who are keen to learn the game. Academy graduates become accomplished players, whilst developing their academic and sporting abilities within a supportive team environment.
