Levels:

Each lesson will be approximately 30mins duration with 2-3 toddler children per class, 3-4 intermediate school age children per class, and 4-5 advanced school children per class.

Levels are also based on the National Benchmarks for Swimming and Safety, which are used as a guide to determine competency during both water safety and skill acquisition. The levels do have ages attached to them, however it is only used as a guide as sometimes ability outweighs age, for example a 6-year-old may swim at the level of a five-year-old and vice versa. This ensures fairness to each student and their classmates.

Children will be initially assessed based on their age, current swim ability and water confidence and a group allocated accordingly. As an indication groups would be as follows:

Learn to Swim:

- **Toddler Tortoise (2 – preschool age)**
- **Purple Penguin (preschool beginner to school age beginner 4 -5/6)**
- **Pink Seal (school age beginner – school age intermediate 6 – 8)**
- **Orange Sea Lion (7 + prepping for stroke development)**

School age advanced levels: from 8 + (based on skill level with stroke development)

- **Bronze Level (half lap swimmer)**
- **Silver Level (half – full lap swimmer)**
- **Gold Level (can complete full laps or multiple laps)**
