

QKR APP UPDATE - NEW LOOK COMING SOON

The user design experts at MasterCard have come up with a new design and parent experience within the Qkr app that all users will see with the update from Apple's App Store or the Google Play store on or soon after the 16th of June, 2016. Your username and password will remain the same, as will any credit or debit cards already stored within Qkr, as well as your profile settings and those of your children. What will change significantly is the look and feel of the app, and the screens you will see in the process of using Qkr. Below are some of the current Qkr screens on left (as seen on an iPad today), and how they will appear with the app refresh.

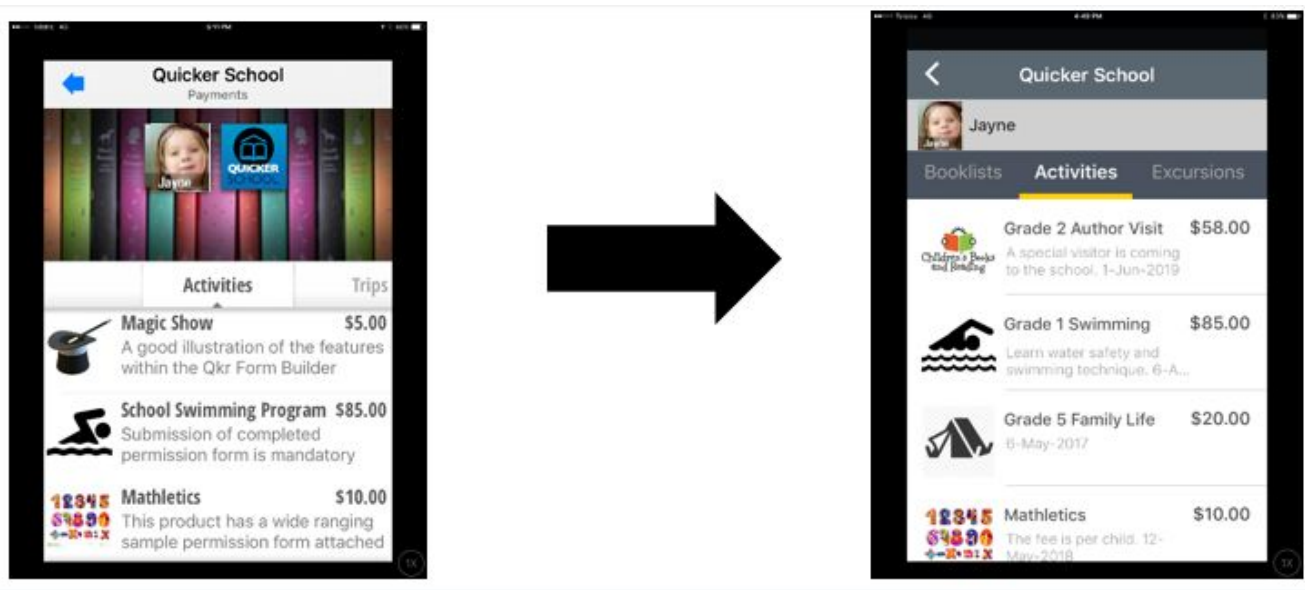

Home screen: Our school will appear at the top of the home screen for currently registered users, but note some new terms like "Discover" and "Activity" as Qkr is being used increasingly by non school merchants around the world, so the design has been modified to cater for users in a wide range of industry sectors.

Receipts will in future be stored under the “Activity” tab. Your old receipts will still be accessible from this area.

Product selection screen: This screen will now be more efficiently used to make scrolling through a large list of products easier.

For schools using the calendar display for food or uniforms, the same functionality is all there, just in a different layout. There is one feature we have always had but few people knew about, and that is the ability for busy parents to copy all of last week's food orders to next week with the click of one button. This is made more visible in the new app with the words "Repeat Order"
