

Claire Justin

I joined Council in 2018 after having been a parent at Preshil for seven years. All five of my children attend or have attended Preshil. My eldest was part of the first cohort of students to complete the IB Diploma in 2019, the same year that my youngest began her school life as the first cohort of children to enjoy the newly renovated 5s.

From the time my cousins attended Preshil in the 90s, I have had my eye on the School. As a child attending a conservative, religious, private school, Preshil struck me as an idyllic, liberating environment where children were living the dream. Now, as a parent and board member at the School, my perspective remains the same.

My decision to join the board was driven by a belief that Preshil plays a pivotal role within Victoria's educational offering which informs my strong desire to see the School flourish with integrity in an uncertain future.
