Changes to health courses at La Trobe University

For the 2020 and/or 2021 intake, the format of allied health courses at La Trobe will shift to a Bachelor with Honours (as opposed to Bachelor of Applied Science with Masters). Students will study their expertise sooner and be given relevant knowledge for safe clinical and professional practice. The following course areas will have changes from next year or 2021:

Dentistry	Dietetics
Occupational Therapy	Prosthetics & Orthotics
Physiotherapy	Podiatry
Orthoptics	Social Work
Speech Pathology	

For information, go to <https://bit.ly/2kE5F3k>

News from Victoria University

New Speech Pathology degree: from 2020, VU will offer the dual Bachelor of Speech and Language Pathology/Master of Speech Pathology. This course will be taught in block mode, meaning subjects are studied sequentially not concurrently. This is the only degree of its kind to be taught this way in Australia, <https://bit.ly/2ITICmk>

Introducing 'Early Start': for selected courses, you may be able to start your studies in January. This will give you flexibility with your subjects and study plan throughout the year, <https://bit.ly/2IT4OvM>

New pathway to Paramedicine: if you're concerned you won't receive the ATAR for the Bachelor of Paramedicine at VU, you can undertake the following pathway:

1. Successfully complete the Certificate III in Non-Emergency Patient Transport at the St Albans campus. Start in February 2020. This will take one semester to complete, <https://bit.ly/2mIFM8R>
2. Apply for the Diploma of Paramedical Sciences for the 2020 mid-year intake. With credit from the Certificate III, this will take 6-months to complete, <https://bit.ly/2Fws8V7>
3. Pathway from the Diploma into second year of the Bachelor of Paramedicine at the start of 2021, <https://bit.ly/2s7VBB2>

News from Charles Sturt University

New Bachelor of Geospatial Science: Available for on-campus study at Albury-Wodonga and online from Session 1 2020, this degree equips students to pilot advanced technologies and study the relationships between physical locations, people and earth processes. Geospatial science is a rapidly growing field with increasing demand for graduates, <https://bit.ly/2lYi0zk>

Creative Industries specialisations: learn about the following specialisations at CSU at this link - <https://bit.ly/2klhrzg>

Sound & Radio
Acting & Theatre
Advertising & Public Relations
Animation & Visualisation
Film, Television & Multiplatform Production
Interactive & Digital Media
Journalism
Photography & Photomedia
Visual Arts

Passionate about IT? Not ready for university study?

Microsoft IT Traineeships: Each year, an estimated 20,000 IT jobs are being created in Australia – with approximately 5,500 graduates coming from university.

That's why MEGT has partnered with Microsoft Australia to launch the Microsoft Traineeship Program, designed to help close the skill-gap and provide a new pathway to those looking to kickstart their IT career.

The program is an opportunity for school leavers to gain valuable (and paid!) on-the-job experience while working towards a nationally accredited qualification — a Certificate IV in Information Technology. Trainees will also gain some of the latest Microsoft certifications that are in high industry demand!

Over 24 months, trainees will be placed with a Host Employer in the Microsoft Australia network in the Melbourne area and learn while they earn. Trainees will complete the program with an innovative skillset of IT fundamentals AND industry experience, setting them up for a rewarding career in IT.

Applications are now open! For information, go to <https://bit.ly/2mfGYdH>
