

Stage 2
Bungawarra
Adventure

Wednesday 16th October, we went to Bungawarra and it was fun because we went on a bushwalk. I saw Coxs River and water flowing heard birds chirping and something in the grass moving.

I was happy and excited to be there.

My favourite parts of the day were making marvelous mixtures, going on the bus and making new friends!

By Andrew

On Wednesday the 16th of October, we travelled to Bungawarra on the bus. On the way, we picked up our Wentworth Falls buddies. When we arrived at Bungawarra we all sat down in the shed and had a little snack.

Next we were split into groups. My group, The Wattlebirds, played a bean bag game. It was about someone throwing the bean bag to a different person and they say their name when they catch the bean bag. We had to learn each other's names!

We had a safety talk by Millie and we talked about the rules inside the shed. Our group rushed out to do the first activity which was building boats and racing them in the creek. I was partners with Nixon, Jules and Saya we built a huge boat, then we built another boat and we named our boat 'The Fasty' and 'The Stickerine'. We raced our boats and 'The Fasty' survived and 'The Stickerine' survived too! The Stickerine was a bit slow because it got stuck between two massive rocks.

Later, we changed activities and we got to make magical mixtures. We added dirt and we pretended it was chocolate and baby dragon tails. We named the poison the baby dragon droplets.

At lunchtime, we went into the shed to eat. We only have one more activity then we can go back to school. The last activity was going on a bush walk where we had a relaxing time near the creek at the end of our bush walk. Afterwards we went back to the shed then we got ready to go back to school. On the way to school we dropped off our Wentworth Falls friends. When we got to school some of us went to after school care it was a fun day! My favourite part of the day was making boats because we get to race them in the creek.

By Anter

On Wednesday 16th of October, we went to Bungawarra it was so exciting because I love being in the bush. The most interesting activity was marvellous mixing because we played with mixtures. I felt happy when I made my boat because I was proud of it!

What I enjoyed was the nature walk as we listened to the water and it was relaxing.

On Wednesday 16th of October stage1 from Springwood and Wentworth Falls went to Bungawarra . First we went on the bus and on the way we picked up the Wentworth falls student. We kept driving until we got to Bungawarra and then we arrived at Bungawarra we had recess. Next, we got to know each other by playing games. We got into groups and the King fishers were my group. The first activity we did was nature detectives. The best thing was when we made marvellous mixing which is mixing mud and other stuff.

By Edmund

On Wednesday 16th of October, we went to Bungawarra. The most exciting thing was that when I was making my boat it felt hard to do but I did it in the end. In the bushwalk I heard about three different birds in the trees but I didn't see them. I felt joy when I heard the birds because when I heard the birds they were like music in my mind. When I heard that we were going to bungawarra I was really excited to go there. My first activity was tossing a beanbag and if you catch the beanbag you would say your name. And my second activity was that we would go on bushwalk to Milly then we be quite for three minutes and then after we would tell everyone what we herd. Then my second activity was that we would make nature boats and when we were ready we would race them the stream. I saw a tree that looked like a monkey. I herd lots of birds in the tree. I smelt rushing water going down the stream. I tasted food. I felt very smooth sticks when I was making nature boats. When I went to bungawarra I was really happy to be at bungawarra because when I arrived at bungawarra I instantly made friends at bugawarra

By Fraser

On Wednesday 16th October, we went to Bungawarra. On our way we picked up the Wentworth Falls children. At Bungawarra, I saw birds, kangaroos, goats, cows and some people even saw a wombat. My group didn't though!

The first thing we did was looking at animal scats and paw prints. There were lots of animal scats look at then we also did a scavenger hunt with our group. We needed one more thing to complete it but we didn't find it - doesn't matter though I was excited when we got to Bungawarra!

Our next activity was making marvellous mixtures of dirt charcoal and water. Our creations were yummy cakes and delicious soups! Some people made mind reading potions and cupcakes. Then my group walked up the hill, I went on the steep part of the hill it was very steep. Then my group and I walked up to the cabin where we ate lunch. Afterwards when we made our nature boats you could only use sticks, leaves, flowers, grass and you could also use twine. They floated down the river.

My favourite part of the day was when we played a bean bag game to introduce ourselves. Only one person could remember my name cause they had a friend called Hannah. I could only remember a few like three or four names.

On Wednesday 16th October 2024 my class and I went to Bungawarra. I was full of joy because my brothers and sisters had told me about Bungawarra.

At the start of Bungawarra we had a safety talk with the leader of Bungawarra she was named Milly. My group and I played a bean bag game where we would throw the bean bag to each other and introduce each other. My group and I saw a wombat. My group and I named the wombat Wally.

My favourite part of Bungawarra was making nature boats. My groups boats were called stickerine and the fasty. In my magic mixture was baby dragon tails and fresh water with dirt. When my group and I done the bush walk we got to sit on a rock by ourselves I listened to the soft birds while Nixon threw sand in the water. Nixon and I saw a possum in a tree.

The cicadas went crazy at Bungawarra while we did a scavenger hunt. When we were leaving Bungawarra Hannah and I walked up a steep hill. We left Bungawarra tiredly. I was excited to get home. Julius Tristan MCHUGH.

Wednesday October 16 to Bungawara with Wentworth Falls campus. Our first activity was making boats out of sticks, leaves, bark and bark. Our second activity was making potions with mud and dirt we called it dragon skin. Then we had lunch with task was looking for animals with my friends. Our last activity was bush walking and listening to the birds. My favourite part of the day was looking at a wombat as well as seeing it move and run so fast it was so satisfying. My second favourite part was making boats with sticks. My least favourite part was looking for animals but it was still fun. My and my group saw a real wombat and I saw it first and then we had lunch and I sat next to the creek. After lunch we had a bush walk on the bush walk I heard birds, trees and the creek and we sat next to the creek and I closed my eyes, listened to lovely sounds. I dropped sand into the creek it made really nice sounds it was a dream the best dream ever I felt so good.

By Nixon

On the 16th of October 2024 I went to Bungwara camp. I saw a wallaby that was not moving because it was watching us and I saw a magpie that was flying around. I heard the flowing of the river the name of the river was Coxs river and I also heard birds maybe 2...or3 birds I heard. I felt excited about the scavenger hunt. I actually saw allot wallaby and wombat scat [scat means poo] as well as dung beetles. The best thing was that me and my dad made this amazing nature boat that I loved so much I put it on the river ...123 it went so well!

By Patrick BB

On the 16th of October my class and I went to Bungawarra ,and my group got to see a wallaby . My group and I saw wombat burrows but we didn't see the wombat and we didn't mind. I felt excited because we made marvellous mixtures. Chloe and I made chocolate pancakes and chocolate fudge milk shakes out of charcoal and weeds. My favourite parts of the day were making boats and going on bushwalk. It was so much fun!
