

Aircraft Engineer Apprenticeship – Northern Territory

Location: Alice Springs Base

Employment Type: Full-time Apprenticeship

Duration: 4 Years minimum

Applications Close: 1st December

About Aerosure

At **Aerosure**, we keep Aircraft flying safely. As a trusted name in aircraft maintenance, engineering, and aviation safety, we take pride in supporting both commercial and private aviation sectors across the Northern Territory and beyond.

Our team of dedicated aviation professionals works with the latest tools, technologies, and safety systems to ensure excellence in every aspect of our operations.

We're now looking for enthusiastic, motivated individuals to join our team as **Aircraft Engineer Apprentices**, where you'll gain the knowledge, skills, and experience to build a successful, long-term career in aviation engineering.

The Opportunity

This **apprenticeship program** is designed to provide comprehensive training in aircraft maintenance and engineering. You'll work alongside highly experienced Licensed Aircraft Maintenance Engineers (LAMEs), learning the technical and practical skills needed to keep aircraft performing safely and efficiently.

Throughout the program, you will:

- Assist in **inspection, maintenance, and repair** of a variety of aircraft types.
- Learn to **interpret technical drawings and maintenance manuals**.

- Gain experience using **specialised aviation tools and diagnostic equipment**.
- Gain experience in understanding **simple to complex systems in aviation**.
- Be trained in **aviation safety procedures, regulations, and compliance standards**.
- Work both in the **hangar and on the flight line**, supporting aircraft operations.
- Undertake formal study towards a **Certificate IV / Diploma in Aeroskills (Mechanical)** through a registered training organisation (RTO).

Upon successful completion, you'll be a fully qualified Aircraft Maintenance Engineer – a profession in **high demand across Australia and internationally**.

What We're Looking For

We're seeking individuals who are:

- **Genuinely passionate about aviation and engineering.**
- **Curious, hands-on learners** with strong mechanical and electrical aptitude.
- **Detail-oriented and safety-conscious**, committed to high standards of work.
- **Good communicators** who enjoy being part of a team.
- **Physically fit and reliable**, with a strong work ethic.

Desirable attributes:

- Completion of Year 12 desirable but not essential however be able to commit to structured learning and successfully complete formal assessments.
 - Previous experience or interest in mechanical work, electronics, or technical hobbies.
 - Australian Citizenship or Permanent Residency (required for aviation security clearance).
 - Valid driver's licence (preferred).
-

What We Offer

- 💰 **Earn while you learn** – paid full-time position with annual progression.
 - 🎓 **Formal qualification** – support to complete Certificate IV / Diploma in Aeroskills.
 - 👨‍🔧 **Hands-on mentorship** from experienced Aircraft Engineers and Supervisors.
 - 🚀 **Career development pathways** into Licensed Aircraft Maintenance Engineering and advanced aviation roles.
 - 🌴 **Great Northern Territory lifestyle** – a unique blend of work, adventure, and opportunity.
 - 🛠️ **Exposure to a diverse fleet** – from various aircraft models of General Aviation.
 - ❤️ **Inclusive and supportive workplace** that values your growth and contribution.
-

How to Apply

Ready to take off on your career in aviation?

We'd love to hear from you!

Please send your **resume**, **cover letter**, and **academic transcript (if applicable)** to:

 Daniel@Aerosure.net

Be sure to tell us:

- Why you want to become an Aircraft Engineer.
- What excites you about working in aviation.
- Any relevant experience, skills, or projects you've been involved in.

Applications close: 1st December

Commencement: 2026

Your Future Starts Here.

Join **Aerosure** and be part of a team that keeps the skies safe — one aircraft at a time.

Apply today and engineer your future in aviation! ✈️
