

Barwon Heads Primary School Parent Payments 2024

School size

430

What are Parent Payments?

Voluntary contributions, or Parent Payments, are opt-in payments made by families to supplement Victorian government funding of public schools. Barwon Heads Primary School (BHPS) relies on Parent Payments to provide many basics, such as stationery, teaching supplies, and playground maintenance. Any extra money allows the school to invest in additional learning experiences for BHPS students.

Suggested Parent Payment:

\$13.65

per teaching week

The school budget is built on a suggested payment of \$560 per student per year - or \$13.65 per teaching week per student. Families are encouraged to pay via weekly or monthly direct debit.

Parent Payments received from:

53%

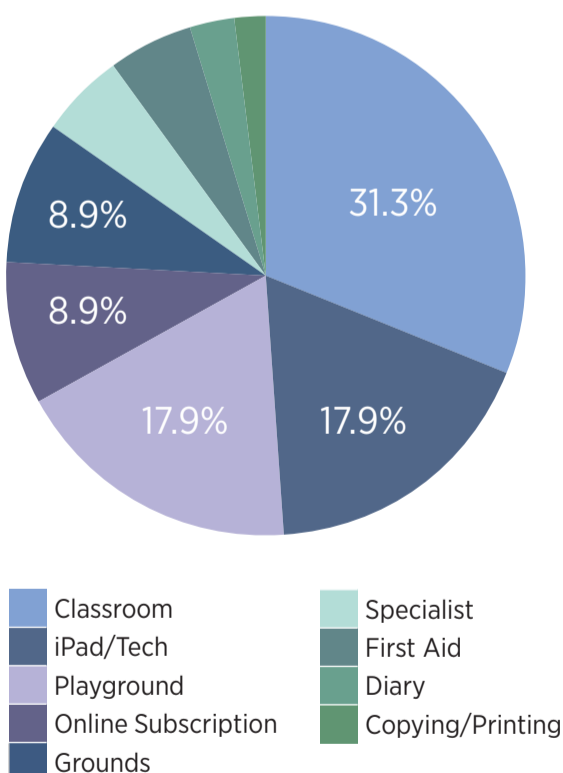

of students as of September 2024

Parent Payment by Category Percentage:

2023 VS 2024:

Did you know?

The \$175 **Classroom** payment covers the cost of every pencil, notebook, glue stick, calculator, and more, that your student uses in their daily learning environment. These supplies are distributed to each student for their generalist and specialist classes.

The \$100 **iPad/Tech** payment means that our students are **not** required to purchase and bring in their own computing device. Each student has access to the same type of device, kept safely at school with the highest level of safety controls.

The \$100 **Playground** payment maintains the school yard's most popular features - the junior and senior playgrounds! These much-loved and well-used spaces require frequent safety fixes, turf cleanings, and replacement parts.

How can I make a Parent Payment?

There are a range of ways you can contribute that don't require a lump-sum payment. The new direct debit installment option offers weekly, or other frequency via your Compass account. Contact Kylie or the administrative team kylie.egan@education.vic.gov.au (03) 5254 2324
