

# YEAR 2 LEVEL

Week 6-11 2025: Newsletter

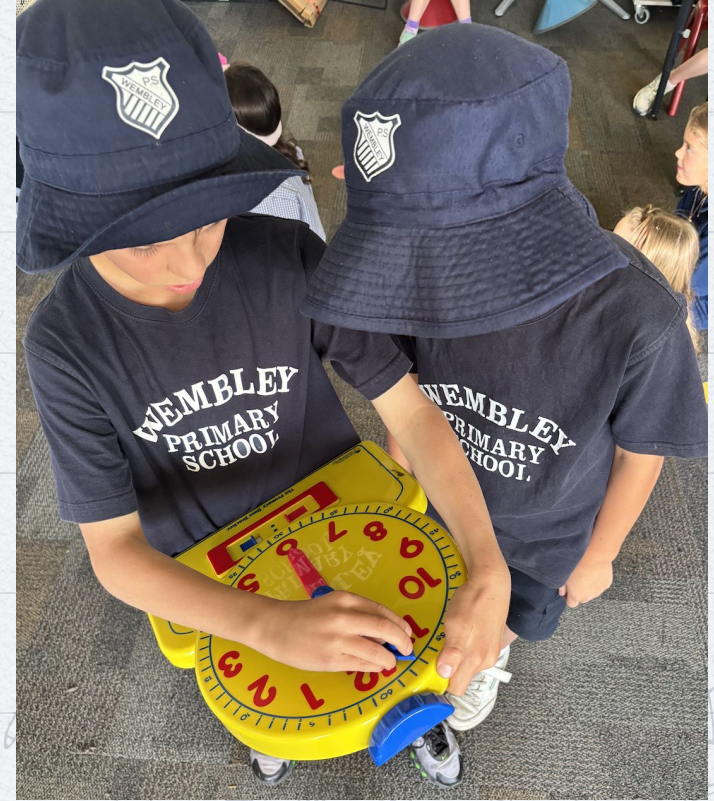

# WRITING

In Writing, Year 2 have been learning all about **persuasive techniques** and how to use them to create strong, convincing arguments. Students have now written two fantastic persuasive pieces: one on **why recycling is important for everyone** and another on **why every child needs to learn how to swim**, perfectly tying in with our swimming program this term.

# MATHS

In Maths, Year 2 students have been learning about **telling the time and reading calendars**. We have been exploring how to read clocks to the hour, half hour and quarter hour. Students have also been working with calendars to read dates, find special events and understand how **days, weeks and months** are organised. These skills have been practised through hands-on activities, games and real-life examples.

## SPECIAL EVENTS OR CONCEPT

Grade 2 have had a few mischievous visitors in December. The elves have been causing havoc! We have also had lots of fun creating cards and decorations for the festive season. We have enjoyed the sunshine and had lots of fun to celebrate our last few weeks of Grade 2!

# FAREWELL YEAR 2

What a wonderful year it has been! After four terms full of fun, learning, adventure and friendship, we are rapidly approaching the year's end.

While we are very excited to wish our Year Twos the very best in their transition into Year Three, we will miss them very dearly.

Thank you for a lovely year.
