

Murdoch University Indigenous Engineering Pathway Scholarship

Are you an Aboriginal or Torres Strait Islander student graduating Year 12 this year and wanting to embark on a career in Engineering via Murdoch University's Bachelor of Engineering Technology?

Murdoch University is offering 5 x \$9,000 to \$12,000 Scholarships to support Aboriginal and Torres Strait Islander students to participate in this field of study that is becoming increasingly important and impactful for a sustainable future.

The Bachelor of Engineering Technology will provide practical engineering experience, and engagement with industry to learn from experts to build a deep understanding of engineering technology with a focus on emerging trends in engineering, sustainability, and industrial needs. Understanding engineering principles will give you the ability to design, manufacture, install, commission, operate and maintain plants and equipment.

The Bachelor of Engineering Technology also provides a pathway to the Bachelor of Engineering Honours, where you can qualify as a specialist in environmental engineering, electrical and renewable energy, or industrial control and automation, depending on your interests and career goals. The **Murdoch University Indigenous Engineering Pathway Scholarship** will move with you, should you transfer to the Bachelor of Engineering Honours program.

Develop your skills with industry focused facilities including our \$10.1 million Bayer Pilot Plant – a real world engineering plant with a dedicated control room, the only one of its kind in WA.

Experience Murdoch's five-star rating for student support, and learner engagement for engineering and technology.

Prepare yourself to become an industry-ready engineer with real-world professional experience. Graduate prepared for what the industry will be, not what it currently is.

Share your journey with fellow students through active student societies such as the Murdoch Engineering Student Society.

To apply for this scholarship you must:

- Be an Aboriginal or Torres Strait Islander
- Be graduating from Year 12 in the year prior to commencing Bachelor Engineering Technology, and
- Have Murdoch Bachelor of Engineering Technology as your 1st or 2nd preference on TISC

Applications open 25 August 2023, and close 1 December 2023.
