

Site Plan NTS

Site Context NTS

- | | | | |
|--|--|--|-------------------------------|
| | Indicative shared pedestrian/bike link | | Subject Site |
| | Indicative secondary circulation link | | Existing Open Space |
| | Potential rain garden/drainage swale | | Bicycle Route |
| | Potential green spaces incorporating planting, trees, play and furniture | | St Augustines Primary School |
| | Potential raised crossing for pedestrian/bikes across Pentland Pde | | Fo Guang Shan Buddhist Temple |
| | | | Yarraville Train Station |

Have your say Birmingham Street park

Council has received funding through the Victorian Government Pocket Parks program for the proposed transformation of the north end of Birmingham Street (between Avoca Street and Somerville Road) into a pocket park for the community to enjoy.

We are seeking your input to help shape a draft concept plan for the space. The draft plan will be circulated for further community feedback later in the year. To participate in an online forum or respond to the online survey please go to: <https://www.yourcityyourvoice.com.au>

The survey will be open until Monday 3 August 2020

If you do not have internet access or would like further information on this project please contact the City Design team on 9688 0200 or email cd@maribyrnong.vic.gov.au
