

It turns out that all that time we were scared  
we didn't need to be but just then the city  
was crashing down at 80km a hour this was  
not good at all.

As I open the bunker doors, I am scared  
to know what I will see...

Stair by stair I got up I could here exploshe  
happen it scary that I had to go up here  
first but <sup>there's</sup> no robot in <sup>sight</sup> so I ran back but the  
door was locked, no one is there.

They hide to me they <sup>said</sup> some one will  
be there but no one opened the door at  
all.

The next day I woke up to a <sup>noise</sup> I <sup>thought</sup> fort  
it was the robot but then ~~I~~ <sup>saw</sup> I ~~saw~~  
the next person in line this <sup>kept</sup> happen day  
after day on day 13 the city started to  
<sup>flood</sup> float ~~higher~~ higher and higher and than it stoped <sup>up</sup>  
All of the 13 people how have came were  
shocked and scared.

day 20 a man came out and 30 seconds  
later the city was crashing down fast.

I didn't know what to do but in the <sup>corner</sup> middle of my  
eye I saw a man setting down so I lowed sit down  
I saw all of it and it at and will t down

We were all scared of it because if one of us  
will all die no one moved for 8 more week by now  
26 people have come out and they all sat down  
might was the sore me.

we all were going to figure a way to stand up  
so we went with one person than a nother and a nother  
it worked.

We all were so happy that we all jump  
and than.

The city shook the city was not stable we were  
all to scared to trust them.

but now i have to trust ~~us~~ <sup>them</sup> so we all split  
1 half 20/20 and it was ok all we need to  
do is live on the over side of each offer.

It was hard because of if we want to the  
over side ~~some one else's~~ <sup>some one else's</sup> wood have to do that to

It bring a year over 1200 people have come and  
live this way all day every day for this years  
we did birthdays christmas ester and hoween  
its being fun and exsiting.

To learn more about one each offer but on apte the 3/3006  
a rasow ~~time~~ team came and tried to go back  
the baryer but nothing worked at all

we were daffantle <sup>made</sup> ~~different~~ <sup>near</sup> ~~different~~ <sup>meta</sup> a ploch well work.  
They chrid to ~~do~~ <sup>do</sup> what they ~~could~~ <sup>could</sup> ~~at all~~ but nufing

worked we all fort it ~~was~~ <sup>was</sup> was hoples and to give  
up but than the beraw opened we were so happy

but now the ~~city~~ <sup>city</sup> is going down we all sat  
down but it

But then we realized that if we step out our heart  
the city will ~~x~~ frepe ofer nocking us off so we  
have to ~~be~~ be snickey and fast ~~at~~ at the same  
time, this is going to be hard but I will believe <sup>we</sup> can  
do it.

so one by one we all started to go in  
the plane we had to go at the same time  
it was going well but some one bumped in the  
plane and the city was lifting and was going  
to flip soon we want faster and faster.  
but no matter what we wornt going  
fast a nofe we were parshing and shavem  
So they cood get on faster than the ofer  
we all got in the plane and we  
tuffed and we sow that there was  
diminished bilodings the Robots end
