

How old do you have to be to study at TAFE?

At least 15!

If you're under 15, your best option is to stay in school.

However, the older you are, the more options you have at TAFE.

Your age	The options available to you...
15 years old	VCAL Foundation
16 years old	VCAL General Education Pre-Apprenticeships in Carpentry, Painting & Decorating, Plumbing, Bricklaying, Electrotechnology, Engineering, Salon Assistance, Horticulture, Agriculture and Koorie.
17 years old	The same as if you're 16 years old, as well as some Certificate III courses in Early Childhood, Beauty, Business and IT.
18 years old	If you find a course that you like the sound of on our website... it's yours to apply!! But maybe just speak to us to make sure you're eligible for them all.

Did you know? School is compulsory until you're 17.

If TAFE is your preferred option then great. So don't just leave school – make sure you talk to your Careers Teachers. Not only will they help, advise and support you, but they will start the process of your formal “exit” from school.
