Open Days & Info Sessions Upcoming Events

Year 12 & Beyond – With ADHD

Organisation: Claire Pech Careers

Location: Online

Date: May 21 to May 28, 2025

Hosted by Claire Pech, CICA-Accredited Careers Practitioner, and Amanda Krulis, endorsed Organisational Psychologist.

Targeted to students with ADHD in Year 12, this webinar will share insights and practical solutions for managing this critical year and beyond and making meaningful career decisions. If students cannot make it a recording will be sent to all ticket holders. Although it is interactive, students will remain anonymous on the webinar.

Topics covered:

- Redefining success - What is it to YOU?
- Finding and Owning your ADHD strengths
- Discovering what careers are aligned to your strengths
- Understanding the options for tertiary studies based on your interests and strengths
- Exploring the pathway options available and ways to get there using Action Plans
- Early Entry Considerations
- Quick guide to Educational Access Schemes (EAS) and adjustment points
- What is Procrastination - and how to tackle it?
- How to deal with stress and staying calm
- How to use technology to your advantage with ADHD
- Q&A

Webinar dates

Wednesday 21 May, 7.00pm - 8:30pm AEST

Thursday 29 May, 7.00pm - 8:30pm AEST [Find out more and register](#)

Workplace Spotlight

[Discover career pathways in Disaster Management](#)

Disaster management is a crucial field that focuses on preparing for, responding to, and recovering from natural or man-made disasters. It involves a range of activities, including risk assessment, emergency planning, and coordination of relief efforts.

This pathway might be right for you if you're interested in mitigating the impact of disasters and keeping communities safe or if you can remain calm and respond effectively in times of crisis.

What do careers in this pathway involve?

By implementing effective strategies and utilising resources efficiently, disaster management aims to minimise the impact of disasters on communities and save lives. People in this field work to ensure the safety and wellbeing of individuals and communities in times of crisis.

There is expected to be steady growth in this field due to the increasing frequency and intensity of natural disasters related to climate change and a greater emphasis on community resilience.

What are some important human skills for this pathway?

- Making decisions
- Innovation
- Adaptability
- Communication
- Collaboration

What are some of the tasks involved?

- Develop, review & update disaster plans
- Manage emergency communication systems
- Oversee teams of workers & volunteers
- Implement hazard mitigation measures
- Coordinate search & rescue operations
- Deploy resources & supplies as needed
- Keep communities updated
- Conduct damage assessments
- Implement recovery initiatives

What kind of work environment and conditions can I expect?

Jobs in disaster management include a mix of office-based planning work and hands-on field work. In some roles you can work remotely during normal operations, but expect to work in-person during active incidents.

Working hours can be unpredictable – the nature of disasters means you could potentially be needed at any time, including overnights, weekends, and holidays.

The Clusters in disaster management

Find out more about the kind of work people in each [Career Cluster](#) might do in this pathway.

Guardians

Guardians in this pathway are crucial to help ensure the safety and wellbeing of communities before, during, and after disasters.

Linkers

Linkers in this pathway connect disaster relief organisations with communities and resources.

Coordinators

Coordinators in this pathway are vital, organising each detail behind disaster response and recovery efforts.

Informers

Informers in this pathway are rare but might educate communities on disaster preparedness and response.

Makers

Makers in this pathway are needed to operate emergency equipment and conduct rescue operations.

Innovators

Innovators in this pathway develop new disaster management technologies and methodologies.

Where can a disaster management pathway take me?

Interested in a career in disaster management? There are many roles you might like to consider – here are just a few.

Entry level roles

These jobs can be started with little or no training or experience, and can be great as a stepping stone towards more senior roles in the pathway.

Disaster Response Officer

Coordinate local response activities and provide direct assistance to impacted people and communities.

Emergency Services Operator

Receive emergency calls and provide initial guidance to callers in crisis situations.

Disaster Administrator

Process emergency declarations paperwork, maintain incident documentation, and support other workers.

Mid-level roles

Once you have some further study or experience under your belt, you might like to consider moving into one of these roles.

Disaster Management Officer

Develop and implement emergency response plans, coordinate disaster drills, and manage resources during crisis situations.

Meteorologist

Analyse weather patterns and data to forecast severe weather events and provide critical information to emergency management teams.

Disaster Recovery Project Manager

Oversee specific recovery projects following disasters, coordinating contractors and ensuring compliance with regulations.

Senior level roles

These jobs will require extensive further education or many years of experience, but are also highly rewarding.

Environmental Manager

Develop mitigation strategies for environmental hazards and coordinate recovery efforts to minimise ecological impact.

Disaster Policy Advisor

Shape high-level government policy to reduce disaster risks at regional, national, or international levels.

Chief Resilience Officer

Develop and implement long-term strategies to help communities prepare for, withstand, and recover from crises.

Similar pathways

If these careers in disaster management aren't quite right for you, you might like to explore some other similar pathways instead.

Environmental Management

Analyse, develop, and implement strategies to protect and sustain our environment.

Government

Manage policies, enforce regulations, provide public services, and promote citizen welfare.

Policy and Planning

Analyse, develop, and implement strategies to shape and guide organisational policies.

How can I build experience in this pathway?

If you're still in high school and want to find out if a career in disaster management is right for you, here are some activities you can do:

- Study disaster response plans to understand emergency procedures
- Research case studies of effective disaster management
- Participate in a virtual emergency preparedness workshop or simulation exercise

We recommend studying these subjects in high school:

- English
- Mathematics
- Geography
- Civics
- IT

Here are some suggestions of places you might like to try and find work experience:

- Non-profit organisations specialising in disaster relief and recovery
- Government agencies involved in emergency management and response
- Environmental organisations
- Humanitarian aid organisations
- Research institutions studying disaster management

Where can I find out more?

You can explore other career pathways and find in-depth information on specific jobs [on our website](#).
