

MORE THAN SPORT

CREATING A MOVEMENT OF CHANGE
FOR TOMORROW'S GRASSROOTS LEADERS

OUR PURPOSE

WE ARE CREATING A MOVEMENT OF CHANGE FOR TOMORROW'S GRASSROOTS LEADERS.

We do this through the following three principles:

LEARN

Children learn the skills of sport within a professional and safe environment through our various sport academies. Skills learned in sport are skills for life. These include team work, honesty, commitment, leadership and integrity.

LEAD

Our team leads the way through our community hero's, business partners, ambassadors and award-winning programs and systems.

GROW

Through our programs children grow and develop into good human beings.

1 IN 4 AUSTRALIAN CHILDREN ARE OVERWEIGHT OR OBESE.

THE OVERALL PHYSICAL ACTIVITY GRADE OF AUSTRALIAN CHILDREN.

BENEFITS

BENEFITS OF PHYSICAL ACTIVITY INCLUDE:

- Boost brain power
- Build strong bones and muscles
- Develop gross and fine motor skills
- Promote confidence, self-esteem and social skills
- Get into the routine of movement

BENEFITS TO YOUR SCHOOL AND YOUR FAMILIES:

- Before and after school program
- Lunchtime sport sessions* (we can work within any space)
- Health and wellbeing workshops
- Assembly talks
- Player development and mentorship
- Dedicated PE sessions
- Teaching children life skills

SCHOOL TESTIMONIALS

Our school has enjoyed a long and productive relationship with Mitchell and his team from Football Star Academy. Over the past year the academy has run classes for all our students to give them the opportunity to learn new soccer skills and develop a love of the game of football. We look forward to continuing our partnership with them to promote healthy lifestyle choices and provide quality sport opportunities to our students and the Peregian Springs community.

Dave Foxover, Deputy Principal,
Peregian Springs State School

We have had the opportunity to participate in a Football Star soccer coaching program and our students became very engaged and inspired to participate in the sport and have continued to play at recess and lunch times. Teachers have reported students being more engaged in their classwork and have come to school with a very positive attitude on the days of their soccer coaching sessions.

Mandy O'Mara, Mernda Central
College

"Sport Star Academy run high quality clinics for students at Malvern Primary School to develop their skills in an enjoyable session. The clinics are immensely popular with our students and the main challenge has been to find enough space for them to run extra clinics to meet demand. The coaches are all friendly, enthusiastic and professional. They work well with the school staff to understand the schools needs and ensure the program is successful with minimal interruption to regular school activities"

Nick Bugeja, Sports Teacher

ASK US ABOUT OUR 'FOOD AND MOVE' PROGRAM!

Sport Star Academy and Jamie Oliver's Learn Your Fruit & Veg programs have partnered together to bring you the "Food and Move" program. The Food and Move school incursion program aims to inspire children's love of both food and movement as these are two essential combinations to create healthy Australian children. The Food and Move program is a holistic perceptive educating the children on two very important factors in life, the importance of eating well as well as the importance in moving.
