Supporting Parents, Grandparents and Carers

UNDERSTANDING & RESPONDING TO CHILDREN'S BEHAVIOURS (0-10 YEARS)

Do you wonder why your children behave the way they do and what to do about it? This presentation provides practical strategies for parents to support their children and guide their behaviours in appropriate ways. Parents are able to raise questions at the presentation and this provides an opportunity for specific issues to be addressed.

With over 30 years of experience in the early childhood sector and qualifications in Early Childhood Teaching and in Special Education, Angela McGann from Early Life Foundation believes all learning starts with relationships.

Angela has been a Director and Teacher in a number of community-based kindergartens, has worked with babies to 12-year-old children and their families as a Play Therapist at Monash Medical Centre and has also been a Sessional Lecturer in the Early Childhood Department at Monash University's Peninsula Campus. Angela is passionate about building strong connections with children, families and colleagues by creating a collaborative environment, so all children can thrive and reach their full potential.
