

20th August 2019

Dear Families,

Sentral is an online secured parent portal that provides families with 24/7 access to different aspects of their child's education.

Currently parents at Rangeview Primary School utilise the portal to send absence notifications, view/access school reports, receive email notifications, schedule parent teacher interviews and view attendance data.

Rangeview Primary school will be introducing more features of the Parent Portal overtime such as;

- Instant messages/push notifications via the 'Sentral for Parents' APP (see below)
- Online Parent Consent for Excursions – coming later
- Online Payments – coming later

The 'Sentral for Parents' APP has replaced Updat-ed. The app will enable you to access the portal on your device. It will also enable the school to communicate important instant messages such as reminders, newsletter notification and event cancellations. When signing up to the app, please 'allow notifications' to ensure you are alerted of any messages from Rangeview Primary School.

We strongly recommend that you download the APP.

Click on the link below to view a video on how to link the 'Sentral for Parents' APP to your existing web platform portal account.

If you have any problems please contact the school office and speak with our Administration team on 9874 6381.

Yours sincerely,

Mrs Liz Barr
Principal
