# Student Electives Term 1 and 2 2026

*Please rank from 1 being our first preference through to 15 being your last preference*

ORDER CHOICE	ELECTIVE TOPIC	DESCRIPTION
	<b>COMPUTER SKILLS - EXCEL, POWERPOINT, WORD, TYPING CLUB</b>	Build the digital skills you'll use in school and beyond! In this elective, students learn how to create documents in Word, design engaging presentations in PowerPoint, and organize data using Excel. You'll also improve your keyboarding speed and accuracy through TypingClub activities. By the end of the elective, you'll feel more confident using essential computer tools for projects, assignments, and everyday tasks.
	<b>STOP MOTION</b>	Stop motion is a creative animation technique where students make a sequence of still images of objects, drawings, or models that are moved in small increments between each photo. When these images are played in order, they create the illusion of movement. Get ready to create some amazing stop motion videos.
	<b>DRAMA AND ACTION</b>	Step into the spotlight and let your creativity shine! In the Drama elective, you'll act out exciting stories, and work together to put on fun performances. Whether you love to move, pretend, or just have a great time with friends, this elective is the perfect place to express yourself and build confidence!
	<b>COMIC BOOK MAKING</b>	Unleash your creativity and bring your stories to life! In this elective, students will learn how to create their own comic books by developing characters, writing dialogue, planning storylines, and illustrating panels. You'll explore the basics of visual storytelling, layout, and comic design while experimenting with different drawing styles. By the end of the elective, you'll have your own original comic to share with others.
	<b>3MDR RADIO STATION</b>	Have you ever dreamed of being on the radio? Maybe you just want to hear your own voice on the radio and produce your own content- interviews, radio, talk shows. We can teach you how to do all of this and more!  In this class we will learn how to write radio programming, collect and edit sound-bytes, stings and music. Working as a team we will produce a radio segment or advertisement.
	<b>TENNIS/PICKLE BALL</b>	Get moving and have fun while learning two exciting racquet sports! In this elective, students will develop basic skills in both tennis and pickleball, including serving, rallying, scoring, and game strategies. Through drills, practice games, and friendly matches, students will build coordination, teamwork, and confidence on the court. Whether you're a beginner or already enjoy racquet sports, this elective is a great way to stay active and improve your skills.
	<b>MOUNTAIN BIKING</b>	Get active and build your riding skills in this exciting mountain biking elective! Students will ride within the school grounds while learning important skills such as bike control, balance, braking, and safe riding. The course focuses on building confidence, improving fitness, and practicing safe riding techniques in a fun and supportive environment.

NAME: \_\_\_\_\_ GRADE: \_\_\_\_\_

		<b>**Bike and helmet required**</b>
	<b>DRAWING CLUB</b>	Spark your inner artist and learn how to draw a variety of different objects and scenes. Work with a partner or group to create a collaborative artwork, or work alone to produce your masterpiece. If you enjoy drawing, this elective is for you!
	<b>ARTS AND CRAFT</b>	Get creative and explore a variety of hands-on art activities! In this elective, students will experiment with different materials and techniques such as drawing and simple craft projects. You'll have the chance to express your ideas, develop your artistic skills, and create unique pieces of art to take home.
	<b>ROBOTICS/CODING</b>	Ready to build and control your own robots? Join the Coding & Robotics elective to learn how to write simple code and bring machines to life! We'll explore fun programming games, solve challenges, and create cool robots together. No experience needed, just bring your curiosity and get ready to invent!  <b>Students in this elective will have the chance to build robots and compete for the school at competitions!</b>
	<b>LANTERN MAKING FOR BELGRAVE LANTERN PARADE</b>	Be part of a magical local tradition by creating your own lantern for the Belgrave Lantern Festival! In this elective, students will design and build beautiful lanterns using a range of creative materials and techniques. You'll learn about the festival, work on your own unique design, and prepare your lantern to shine in the community celebration. This is a fun, hands-on opportunity to be creative and contribute to a special local event.
	<b>LEGO CLUB</b>	Throw out the instruction booklets! We will be creating lego masterpieces from our amazing imaginations. Using what you already know about building, we will be using lego blocks to create new ideas, fun challenges and games.
	<b>BOARD AND CARD GAMES and CHESS</b>	Come and try your luck - Board games are a specific type of tabletop game that often include pieces or counters that are moved on a board according to a certain set of rules. Learn and play card games together or play a round of chess.
	<b>MINECRAFT EDUCATION</b>	Each week students will experience a guided lesson within Minecraft Education, these topics will range from literacy, science, build challenges, sustainability and much more!
	<b>SCHOOL CHOIR</b>	Love to sing? Join our Student Agency Singing Elective on Fridays! This is a great opportunity to sing with others, build confidence, and share your passion for music. Students will work together to prepare songs and may have the chance to perform at school assemblies.
