- All extracurricular commitments are never compulsory but consistency is recommended for player and team development.
- All players must attend a minimum of 4 training sessions in the term before being eligible for selection in games. Players must then also maintain a 70% attendance rate at training sessions to continue to be eligible for game selections. Players are exempt from training sessions with appropriate written communication from themselves or parents whereas a missed training session with no communication will be marked 'absent without communication'.
- Calendar is subject to change at short notice. All finer details will be communicated to players and parents with as much notice as possible.
- All details of team selections will be announced to players in the Rugby League Academy student Canvas Page on Thursday or Friday the week before.
- Players rewarded with selection are expected to represent the College during that game abiding by our PRIDE values. If a player can't make a game they will be responsible for communicating this to coaches as soon as possible.
- Thursday 17th September is a major day for Rugby League at St Mary's. During school hours our students play in the inaugural St Mary's 7s Rugby League Gala Day which is very exciting for our school community. To wrap up the day we have our final Open's game for the year after school where a BBQ and presentations will be held for our Year 12 students who play their last ever game for the College.
