New Education Courses at Deakin in 2021

From Trimester 1 2021, the existing Bachelor of Education (Early Years) will be replaced with the following new courses:

- Bachelor of Early Childhood Education – 3 years duration
- Bachelor of Early Childhood and Primary Education – 4 years duration

The introduction of a *new* three-year early childhood degree will provide students with an opportunity to enter the workforce 12 months sooner.

The *new* four-year combined degree allows for maximum flexibility for students to pursue a career in either early childhood or primary education settings.

The two degrees have been structured in a way that allows early childhood students to seamlessly transition into the combined degree, to complete the primary education component, should they wish to do so.

These new courses will be promoted during Deakin's upcoming Virtual Open Day on Sunday 16 August, so students keen on finding out more might like to register for the Virtual Open Day [here](#).

Pathways to study at La Trobe in 2021

La Trobe has created two *new free* pathways where students can study a La Trobe subject or micro-subjects online – and La Trobe will use their results, instead of an ATAR, when they apply for an eligible Bachelor's degree.

1. Achieve at La Trobe

VCE students can complete a *first year La Trobe subject online* in Semester 2, 2020. La Trobe will use the grade achieved to calculate an ATAR-equivalent score – and if it is higher than their ATAR, that grade will be used when they apply to La Trobe.

Find out more at [Achieve at La Trobe](#)

2. Prepare for La Trobe

Students can complete *online and free micro-subjects* from La Trobe's [Tertiary Preparation Program](#) that will give students the skills to thrive at university, as well as an ATAR-equivalent score they can use when they apply. VCE students will complete three micro-subjects and VCAL students will complete six.

Find out more at [Prepare for La Trobe](#)

Bachelor of Biomedicine to Master of Physiotherapy

The [Bachelor of Biomedicine](#) at La Trobe University is a suitable degree to use as a pathway to the 2-year ***Master of Physiotherapy Practice***.

Students should note that La Trobe graduates are given first preference when applying for this program. So, as long as students ensure they complete compulsory tertiary-level subjects in *anatomy, neuroanatomy, physiology and biomechanics*, and meet the minimum requirements of a WAM of 65 per cent and all relevant prerequisites, they set themselves up to be eligible to be considered for entry into the ***Master of Physiotherapy Practice***.

The Master of Physiotherapy Practice is accredited by the Australian Physiotherapy Council, and graduates of the Master of Physiotherapy Practice may be eligible to apply for registration with the Physiotherapy Board of Australia.

For more information visit [Master of Physiotherapy Practice](#)

New Nexus Program

*Introducing a revolutionary new path into secondary teaching - the Nexus Program: providing a first of its kind **pathway into secondary teaching**.*

Nexus students will be supported by the Federal Government's [High Achieving Teachers Program](#). This means successful participants **will receive a salary while studying** as well as access to mentoring and professional development.

What are the benefits of Nexus?

Nexus aims to recruit, prepare, graduate, and assist in the employment of teachers in low socioeconomic schools in urban, regional and rural Victoria. Nexus students will receive all the benefits of the [Master of Teaching \(Secondary\)](#) plus:

- payment at teacher aide rates as they become a fully qualified secondary teacher
- placement in a low socioeconomic secondary school in regional or metropolitan Victoria throughout their degree
- extra opportunities for professional development in social justice areas
- employment support at graduation and for two years as a beginning teacher
- a blend of block study during intensives and highly mentored external study
- Nexus students will spend more time with lecturers, teachers and local communities
- all Nexus places are Commonwealth supported

Current VCE students considering a career in secondary education are highly recommended to learn more about this excellent opportunity - [La Trobe Nexus Program](#)

➤ Study Website

[Study](#) is a very useful online toolkit that has all the information prospective students need to make the most of their post-secondary plans. From choosing a course - to application advice, finding accommodation, making the most of campus life and accessing support services.

➤ Stay Connected

Students considering studying at Melbourne are recommend signing up to receive updates from the University, especially during these changing times. Students can nominate their area(s) of interest to personalise their communications from the University. Signing up to hear from Melbourne means, if there are any changes that impact their future study plans, they will be the notified directly. **Register at [Stay Connected](#).**

➤ Meet Melbourne Online 2020

Students are reminded that they can still access the recordings of the [Meet Melbourne 2020](#) webinars, with each webinar providing more information about the courses and careers that interest them most.

AUSTRALIAN CATHOLIC UNIVERSITY ACU Guarantee Program

Guarantee your place at ACU, even before your Year 12 exams. The ACU Guarantee program offers eligible Year 12 students a place at ACU based on your Year 11 results.

With the considerable challenges Year 12 students have been facing this year, ACU has introduced the **ACU Guarantee** program. Students can make an application through this program, have their Year 11 results considered, and ACU will produce a predicted selection rank and make a conditional early offer before final exams have been sat.

Applications for 2021 entry open 3 August 2020 and close 25 September 2020. Students are required to apply through the ACU Guarantee application portal on the ACU website. Students will have to upload their Year 11 reports and may also choose to supply a brief statement outlining their personal circumstances and motivation for university study, which may help improve their selection rank. Students need to be mindful that not every course is participating in this program.

Find out more at [ACU Guarantee Program](#)

Swinburne 2021 Early Entry Program

A different way to enter university that will not depend on your ATAR - for Semester 1, 2021 only.

The [Swinburne 2021 Early Entry Program](#) is a unique opportunity for current Year 12 students to receive a conditional offer based on a recommendation by the school, and not based on an ATAR. Applications open early August 2020 but interested students are invited to register their interest and receive regular updates - [register here](#).

Details of the application process, as well as participating courses can be found below.

1. Application process

For a detailed overview of the steps students will need to follow, as well as some handy FAQ's, head [here](#).

2. Eligible courses

Not all courses will be offered through this program, so here is a list of the [eligible courses and their VTAC codes](#).

3. Recommendation form

As part of this alternate entry to university, students will need to submit a letter of recommendation. Here is a PDF copy of the [Recommendation Form](#), you can also download it [here](#).

News from Federation University

➤ Guaranteed ATARs

A *Guaranteed ATAR* enables students to plan and list their course preferences with confidence. This means that students have complete transparency when choosing their courses and can make informed decisions about their future now. So, should a student receive an ATAR equal to or above the guaranteed ATAR, meet the course prerequisites and any 'essential requirements for admission', Fed Uni will guarantee a place in the course/program applied for. Visit [Guaranteed ATARs at FUA](#) to find out more about which courses are included.

➤ New Courses on offer

- [Bachelor of Education \(Early Childhood Education\)](#)
- [Bachelor of Professional Accounting](#)
- [Bachelor of Physiotherapy](#)
- [Bachelor of Occupational Therapy \(Honours\)](#)

➤ Fed Future Webinars

Students interested in finding out more about the [Bachelor of Food and Nutritional Science](#) or the information on [physiotherapy](#) or [occupational therapy](#) are encouraged to participate in upcoming webinars. **Find out more and register [here](#).**

Early Access to 2021 Courses at the University of Tasmania (UTAS)

UTAS is introducing a *School's Recommendation Program*. This program will ensure that Year 12 students are not disadvantaged by any challenges they have faced this year. It has been designed to give students confidence in completing their Year 12 and receiving a university place in 2021.

Students are encouraged to browse [UTAS School's Recommendation Program](#) to find out more.

VIRTUAL OPEN DAYS 2020

Each year, in August, universities and other education providers open their doors to prospective students. This year universities are running Virtual Open Days. Students could join Open Days online from the comfort and safety of their own home and discover how universities can help them achieve their goals.

What can you expect from a virtual Open Day?

HEAR FROM EXPERT TEACHERS

Chat to academic staff to learn more about your course options and career outcomes.

TOUR CAMPUSES

Explore campuses and facilities.

FIND OUT WHAT A UNIVERSITY HAS TO OFFER OTHER THAN COURSES

Find out about study opportunities, scholarships, internships, study and personal support services, clubs and societies, and events and activities that are held throughout the year.

These extras all contribute to what makes university a rewarding and supportive experience.

ASK QUESTIONS

Make the most of the day to find out exactly what you need to know –

- What are the entry requirements and pathways available?
- Are there any extra features in your program - internships, international study tours, industry projects?
- What types of careers do graduates go into?

COMPARE, COMPARE, COMPARE

Even if you think you're 100% sold on what university you want to apply to, attend other university open days so you have something to compare it to.

It may further cement your decision or open your eyes to a possibility you hadn't considered before.

Each university will have its own point of difference.

It might be useful to think of three key questions to ask at each institution to help you compare which one suits you best.

You'll be spending a lot of time at university so you want it to be right.

Civil Engineering Degrees in Victoria in 2020

Civil engineers plan, design, construct, operate and maintain roads, bridges, dams, water supply schemes, sewerage systems, transportation systems, harbours, canals, dockyards, airports, railways, factories and large buildings. They may perform some of the following tasks*:

- investigate sites to work out the most suitable foundation for a proposed construction
- research and advise on the best engineering solution to meet a client's needs and budget
- produce detailed designs and documentation for the construction and implementation of civil engineering projects
- organise the delivery of materials, plant machinery and equipment needed for the construction project and supervise labour
- analyse and interpret reports on loading, labour, productivity, quality, materials and performance
- analyse risks associated with natural disasters including wind, earthquake, fire and floods, and design structures and services to meet appropriate standards
- arrange for geological and geophysical investigations and carry out feasibility studies

Electrical Engineering Degrees in Victoria in 2020

Electrical engineers design, develop and supervise the manufacture, installation, operation and maintenance of electrical systems. They work on systems for the generation, distribution, utilisation and control of electric power. They also work on electronic systems used for computing, communications and other industrial applications. (Good Universities Guide)

Electrical Engineering involves the design and study of electronics, power, and electrical systems.

Electrical Engineering deals with the problems associated with large-scale electrical systems such as power transmission and motor control.
