The **University of Melbourne** offers the **only Veterinary Science** degree in Victoria, and is one of two universities offering an **agriculture degree** (in addition to La Trobe University).

If you are thinking of studying either of these degrees at the University of Melbourne you might like to attend the **Werribee Open Day** and explore your future. Learn more about these **degrees**, meet some **furry and reptilian** friends, and **feast** at the food stalls on the day.

New Bachelor of Nutrition Science

Nutritionists help communicate nutrition science to the public and advise the community about food choices for healthy eating. Studies in nutrition therefore include the nutritive value of foods, the nutrients that bodies need at different stages of development, and the role that nutrients and diet play in health promotion and disease prevention.

Nutrition links very closely with the national health priorities in Australia such as obesity, diabetes, cardiovascular disease much of which are preventable through healthy lifestyle.

ACU's new 3-year **Bachelor of Nutrition Science** program will focus on general healthcare, chronic disease management, Indigenous health, and other emerging areas of need in the industry and will appeal to students interested in careers in nutrition including nutritionists in public and private industry, hospitals and public health sectors, e-health and tele-health, in nutrition communication, and in the food science and in the research and development sectors.

Importantly, the program will also provide the basis for postgraduate studies in dietetics. Dietitians treat disease through diet and therefore require further studies and clinical practice in health settings.

The VCE pre-requisites are: Units 3 and 4 – a study score of at least 30 in English (EAL) or 25 in any other English.
