

# Term 1 in 4G Bursaria

It's been a fun term getting to know each other in 4G. Students have been stepping into leadership roles within the class, working hard at their own levels, asking great questions and doing a great job of demonstrating our School Values of Kindness throughout each day. We've established monitor jobs that rotate daily, and the students have quickly settled into the new routines for the year. I'm really looking forward to working with them for the remainder of 2026.
