dawesb@stmargarets.vic.edu.au by 21 June 2019.

UCAT Medicine and Dentistry Students

**One-day Workshop**

The NIE – National Institute of Education are running a one-day UCAT (University Clinical Aptitude Test) workshop coming up on Saturday the 8th of June in Melbourne. This course is designed for students considering a career in medicine or dentistry, for those sitting the UCAT this year and for those who wish to have a head-start in UCAT preparation. The venue is yet to be confirmed, however you can review the details and register here if you haven't already: <https://www.nie.edu.au/ucat-courses/simulated-ucat-day-workshop?idU=2>

Richmond Institute of Sports Leadership

In this newsletter our career focus is sports coaching. For those students who wish to pursue their interest in this career, it is recommended that you research the VET course options and consider other introductory programs such as the 'Richmond Experiences' run by 'Richmond Institute of Sports Leadership' (RI). RI works in conjunction with Swinburne University of Technology who offer Diploma's in Sport Development and Leadership & Management.

RI currently have two programs available to students, providing an excellent opportunity to learn about working in an elite sporting environment:

Option 1: Duration – 90 mins

- Visit Richmond Football Club's facilities and view a world class sporting environment.
- Learn about an elite AFL player's training session.
- Gain insight into the 'Richmond Institute of Sports Leadership' and sports industry pathways.
- \$200 +GST* (up to 40 students).
*Free for groups of Year 12 students.

Option 2: Duration – 4 hours

- Same activities as above plus participation in a high-performance training session.
- \$500 + GST (up to 25 students)

For more information, contact:

Email –

sportsleadership@richmondfc.com.au

Mobile – 0473 111 109

Website – www.richmondinstitute.com.au

Career Focus – Sports Coaching

Sports coaches teach individuals and teams how to improve the way they play and practice their sport by analysing their performances, instructing them in relevant skills, providing motivation and enhancing their capabilities.

Sports coaches:

- Observe individuals' performances to determine the level of instruction required.
- Teach techniques to help sportspeople acquire additional skills or improve existing skills.
- Supervise practice sessions.
- Plan training programs.
- Supervise athletes' physical development.
- Organise and liaise with sports science staff.
- Arrange entries into competitions.
- Plan and direct game strategy, sometimes in consultation with club officials.
- Analyse the progress of games or competitions and give signals and instructions to players.
- Carry out post-competition analysis of performance and evaluate strategy.
- Undertake related administrative tasks such as booking venues, organising tours and budgeting.
- Travel with individuals and teams to competitions.
- Recruit players and coaching staff.

To work in this field, it is important to:

- Have a thorough understanding of the particular sport.
- Have good communication skills.
- Have good interpersonal skills.
- Be enthusiastic, disciplined and dedicated.
- Be flexible and innovative.
- Be prepared to travel and to work long hours, evenings and weekends.

Sports coaches can operate on an honorary (unpaid) or professional (paid) basis and usually specialise in a particular sport. The degree of personal proficiency required to coach a sport varies widely, ranging from experience as a voluntary junior coach through to an elite coach of a highly commercialised sport.

Some areas of sports coaching do not require formal qualifications and each sport has its own coach qualification framework managed by the state and/or national governing body. Entry to this occupation may be improved if you have the background in the specific sport and/or have qualifications in a relevant discipline.

If sports coaching is a career of interest for you, you may like to consider a VET course, such as Certificate II & III in Sports & Recreation or Outdoor Recreation. You can also consider applying for a traineeship however entry requirements for these positions may vary, but employers generally require completion of Year 10. You can become a qualified sports coach by completing a degree in sports coaching, sport development, exercise and sports science, sport management or human movement. To gain entry into these courses, you usually need to acquire your VCE. Prerequisite subjects, or assumed knowledge in one or more of English, Mathematics, Biology, Chemistry, or Physics are normally required. Institutions have different prerequisites and some have flexible entry requirements or offer external study. Please contact the institutions you are interested in for more information.

It is recommended that coaches become accredited. The National Coaching Accreditation Scheme (NCAS), coordinated by the Australian Sports Commission (www.ausport.gov.au), offers education, training and accreditation to coaches. NCAS training programs include components for both general coaching principles and sport-specific skills, techniques and strategies. These programs are available for more than 70 sports, providing the industry-standard qualification for coaches.

Full-time employment opportunities can be limited for professional sports coaches. Coaches are employed by sporting clubs and associations, government agencies, government-funded centres (such as the AIS – Australian Institute of Sport, state, territory or regional institutes or academies of sport), holiday resorts and centres specialising in particular sports (such as

horse-riding schools), swimming centres, health clubs, community institutions and educational institutions (schools and tertiary, for example). Job opportunities generally depend on the number of people playing various sports, corporate sponsorship and media coverage of sporting events, the performance of Australian sporting teams and individuals and the level of community interest/involvement in these performances. Other factors include the acceptance of sports as a part of a healthy lifestyle, the amount of money available to sporting clubs, the effectiveness of sports promotion, as well as the trend towards professionalism in many sports, including football, basketball, baseball, netball, hockey and soccer.

According to the latest Australian Government Labour Market Industry Projections Report, sports coaches, instructors and officials are due to see a 20.3% increase in employment growth in the next five years and Outdoor Adventure Guides a 26.5% growth.
