

Secondary School Presentations

INTERNET SAFETY
& CYBERBULLYING
EDUCATION
AGES 12-18

Customised Sessions

Every training session delivered by ISE is tailor made to your individual requirements including:

- Length of Sessions
- Audience Size
- Content & Topics
- Year Levels
- Device Rollout

Our Secondary School presentations challenge student’s mindsets and assumptions about the realities of the online world. This is achieved through real and sometimes confronting presentations with life lessons that can’t be denied. In all of this, we aim to empower students with the knowledge they need to act responsibly in the online environment.

Undercover internet detective Brett Lee spent thousands of hours as a fictitious teenager on the internet; which creates a powerful and unique credibility with the audience that is essential and unparalleled. The messages are made real through the use of crime cases and videos and culminate in points to remember and actions our students can take to avoid or reduce issues they may face in an online world.

Cyber Safety and Cyber Bullying education is what the ISE programs specialise and excel in. These presentations are truly unique, outcome driven and have been delivered to hundreds of schools worldwide.

“For the first time the world behind their screen is revealed to them forcing a positive change of mindset”

Testimonial

Joe Zavone

Deputy Principal / St Scholastica’s College, Sydney

Nobody else in Australia can offer programs with this level of credibility or insight. I cannot thank ISE enough for the impetus and stimulus you have given us.

Secondary School Presentations

Topics include:

- Cyberbullying
- Identity theft
- Sexting
- The law and the internet
- Using the internet in the workplace
- Protecting and cleaning up our digital reputation
- Controlling and using the internet effectively

Up to Date Content

The secondary school program is delivered by credible and professional presenters.

Our thousands of hours of delivery and research enable us to know what teens need to hear and what will make change.

On request ISE conducts research prior to attending a client school and gathers information relating to students for use throughout the presentation.

Having hundreds of examples, photos, real life stories and videos allows ISE to create a presentation to address your specific requirements and duty of care needs.

We Can Address

- Communication & Chat Programs
- Online Gaming
- Social Networking
- Browsing & Viewing

Other ISE Programs

- Primary Students
- Professional Development
- Parenting Sessions
- Seminars/Conferences

Book one session up to an entire day or night. Same day packages including student, teacher and parent sessions recommended

About Internet Safe Education

ISE creator, Brett Lee, worked as a Queensland Police Officer for 22 years, 16 of those as a Detective predominantly in the field of Child Exploitation. In his last five years of service, he was a specialist in the field of undercover internet child exploitation investigations.

Brett has been personally involved in the online investigation, arrest and prosecution of numerous offenders, whose medium for preying on children is the internet. Further to Brett's experience, he has completed the FBI Advanced Internet Investigations Course and has worked with the FBI Innocent Images Unit, Maryland USA, the Department of Homeland Security Cyber Crimes Centre, Virginia USA and the San Jose Internet Crimes Against Children Task Force, California USA.
