

FOUNDATION

Literacy & Numeracy Update

Students have loved learning about our 5 senses. We have introduced many new vocabulary words to students and they have begun using them in their sentence writing. You might be able to ask your child what new content words they have learnt lately.

In Numeracy, students are exploring place value. We are completing many activities to demonstrate the value of a digit depending on its place in a number. Students will be working with numbers to 100.

Upcoming Focus

Soon students will begin a Discoveries unit based on Design and Technology. They will be posed with design challenges and will be asked to create a solution to these challenges. It will be great to see their creativity and resilience on show as sometimes they will need to continue to modify their designs until they are successful.

Skill in Focus

Reading authentic texts

Our students have been given the opportunity to read non decodable texts. We have used our knowledge of phonics and "heart words" to assist us to read unfamiliar words in these texts.
