## Works Notification

*Multipipe and Zinfra on behalf of Jemena plan to do works as stated below*

<b>We will do works here:</b>	5 Argyle St – 17 Argyle St, West Footscray
<b>Dates of works:</b>	22/08/25 – 31/10/25
<b>Times of works:</b>	School Holidays: Mon – Fri: 07:00am – 05:00pm  School Days: Mon – Fri: 10:00am – 02:00pm
<b>What we are doing:</b>	Underground Boring and Open Cut Trenching for New Electrical Feeder
<b>We have a Council permit:</b>	Provided by Maribyrnong City Council

### Important Notice from Jemena:

Upgrades are being made to provide new electrical feeders with safer underground connections that meet today's safety standards. These works will involve installation of new underground electrical services at the front of affected properties. Once these works are complete and a new point of supply has been established, Jemena will be in touch with further communications, which will detail the next steps for connecting to the new underground supply.

### Things you should know about our works:

**Bicycle:** Bicycle and Vehicle traffic management to be merged into 1 as the vehicles pass the worksite. Traffic management to delineate public access from work areas to allow continuous flow of traffic. Traffic may be halted for work activities to be performed safely at times throughout the day.

**Parking:** Parking will be sourced along Argyle Street and Essex Street as the works progress along the street.

**Detours:** No detours will be in place for vehicles. Bicycle and Vehicle traffic management to be merged into 1 as the vehicles pass the worksite. Traffic management to delineate public access from work areas to allow continuous flow of traffic. Traffic may be halted for work activities to be performed safely at times throughout the day. Please communicate with traffic controllers and let them know where you need to go as they will be able to direct you to the safest route. Your patience is appreciated whilst we undertake these necessary works.

The worksite is highlighted below in green. This will be delineated by certified Traffic Controllers to ensure pedestrians and vehicles can travel through the site safely using signage and bollards. Access to nearby shops will be maintained with traffic management personnel onsite to assist the general public and ensure the safety of anyone travelling through the worksite.

There will be moderate noise generated by construction equipment i.e excavator, concrete saw cutting, NDD truck, underboring machine. Works will be completed during daylight hours and machinery required for works completion will not be started prior to 07:00am on a weekday.
