The best universities to study medicine in Australia

Medicine courses are typically a four to six-year program and sometimes it requires relocation. A medicine degree can lead to a career as a medical or general practitioner.

The Good Universities Guide rankings are designed to highlight a universities' specific strengths, offering insight to support and guide decision-making when choosing a university. View the rankings in terms of how each university performs overall, or you can narrow down by field of study and state.

We looked at which universities with undergraduate medicine degrees performed best in graduate salary, full time employment and student support.

Graduate Salary

The following rankings revealed the median salary of university graduates. The University of Western Australia scored the highest graduate salary with \$76,000, followed by The University of Notre Dame with \$75,000. <https://www.australiancareersservice.com.au/industry-news/the-best-universities-to-study-medicine-in-australia>

The best universities for sciences in 2021

For those with a passion discovery and problem-solving, one of the many courses available in the field of science may be of interest. A double degree in science paired with something like education, engineering, law or business can expand employment opportunities, providing a back-up in a tough job market. Related courses and occupations include computing and information technology, engineering and technology, mathematics, surveying, various health fields and veterinary science. Some of the majors available in science include astronomy; biotechnology; chemistry; food science and technology; geology; marine science; medical science; meteorology; physics and zoology.

COLLEGES

Qantas Group Pilot Academy Applications are Open

Applications are now open

Estimates suggest that 790,000 more pilots will be required globally over the next 20 years with around one third of them in the Asia Pacific region.

To help meet the increasing need for skilled aviators in one of the fastest growing global industries we have launched the Qantas Group Pilot Academy. The Academy is part of our plans to build a long-term talent pipeline not just for Qantas, QantasLink and Jetstar, but for the industry more broadly.

As the national carrier, we have a history of attracting the best and brightest to fly for us, so we are hoping to see passionate men and women training with us at our new Academy.

Course Information here:

Australian Federal Police Entry Level

It is anticipated that the 2021 process will open in the coming months.

The AFP is interested in attracting individuals who are up for the challenge – both physically and mentally for our entry level recruit – Police Officer and Protective Service Officer roles. If you want to give back to the community, align with our core values of integrity, commitment, accountability, fairness, trust and respect then you are strongly encouraged to apply. Still interested? Set up a job alert and receive an automated email to let you know when new job opportunities are released. To set up a job alert you must first create a profile with the [My Career Vacancies Page](#). Once your profile is created you can manage job alerts via the 'Job Management' tab.

Meet People in These Different Finance Careers - Videos

What does it take to become a Chartered Accountant

Chartered Accountants display exceptional thinking and a superior grasp of business that truly marks them as unique in the marketplace. They work at some of the highest levels in business as chief financial officers, CEO's, senior managers and partners of some of the world's largest companies.

<https://studentedge.org/career-life/find-a-career/chartered-accountant>

Business Analyst

Business analysts work with organisations to formulate business requirements, develop business plans and documentation, review and evaluate existing systems and processes and design and modify systems and processes to meet business needs. Business analysts use data and process modelling techniques to create clear specifications and requirements. They are a central reference and information source, providing guidance and assistance in the business decision making process.

<https://studentedge.org/career-life/find-a-career/business-analyst>

Economist

Economists study and predict trends and changes in financial, labour and trade markets. They study economic factors, such as taxation levels, wage rates, employment figures and exchange rates and use their findings to prepare forecasts and provide advice to businesses and governments on possible courses of action. Economists may study the broad global economic situation, providing advice to governments and multinational corporations, or they may examine the economy of a single, small firm to provide advice on how to maximise profits and determine the level of demand for a product or service.

Maths Careers in Science and the Environment

From Astrophysics and Chemistry to Biology and Zoology, Mathematics is a fundamental tool used in science to understand how and why the world works. Data analysis, mathematical modelling and evidence-based decision making play an important role in research. Scratch beneath the surface and you will find science and maths working together to help understand and our planet, oceans and wildlife, discover new galaxies and advance new technologies. With rising global temperatures, food security concerns and changing global ecosystem dynamics, climate change is a real and urgent priority! The green economy is worth \$6 trillion worldwide and is the fastest growing market globally, with 850,000 more people needed in the sector by 2030.
