

My corona virus story

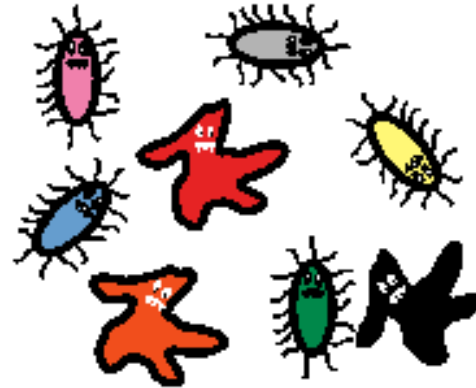

At the moment, there is a sickness called Coronavirus or Covid-19.

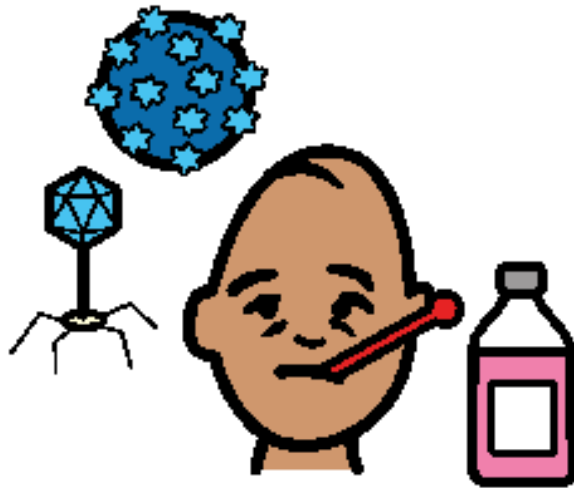

People can get Covid-19 from being close to others and catching their germs.

Germs are tiny things you cannot see.

My family and I have corona virus.

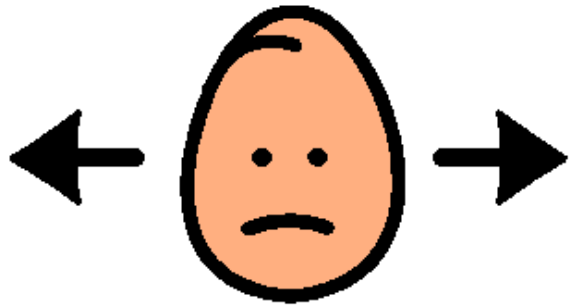

I need to stay home for a while.

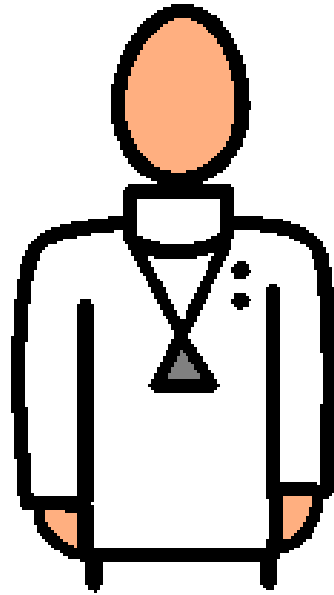

I will need to play and learn at home.

I can't leave home.

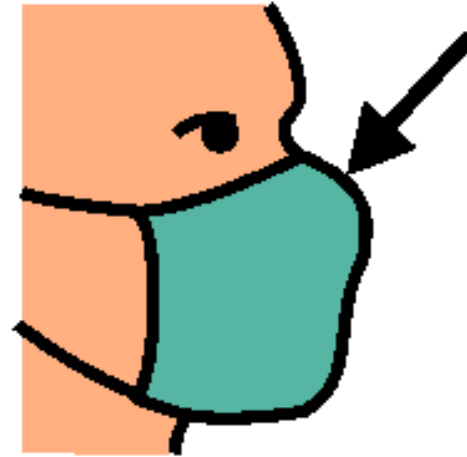

My doctor will help me to feel better.

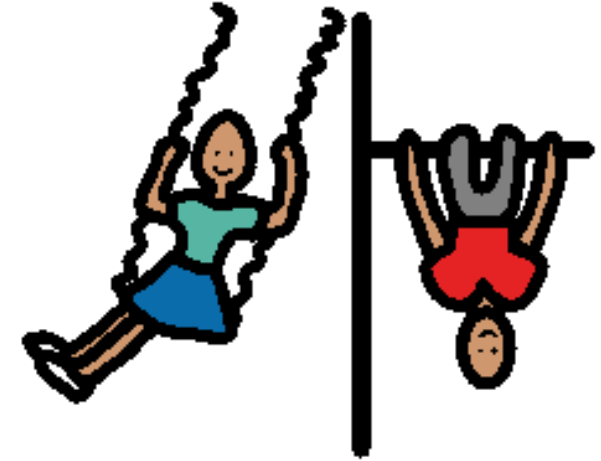

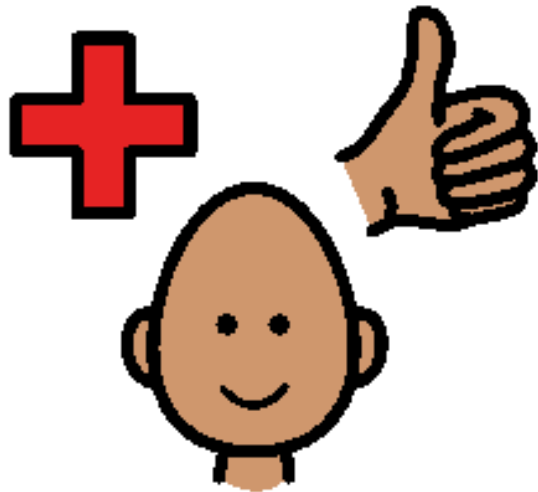

I will need to rest at home so my body
can get better.

I will wash my hands regularly and wear a mask.

When I am feeling better I can leave home.

It will be okay!
