

Monthly Update:

Dear St Augustines Community,

Welcome back to term 2! We hope everyone had enjoyed their Easter break, as we look towards the rest of the year with much excitement.

We have had a wonderful and engaging time so far this year, coming back to term 2 from a very busy, action-packed holiday program!

We shift our focus this term onto the Science Academy Program that will be Implemented into the OSHC sessions. This a science-based set of activities that are sure to keep the children curious and enrich their OSHC experience.

This year so far...

This year at OSH, we have developed our 'homework club'. This is a chance for the children to finish off any work given to them during school, freeing up their time at home.

We have also been able to provide a much wider range of activities, particularly with the 'make and take' program during the school holidays. This was a chance for the kids to get creative and have something to bring back with them from their time at OSHC.

We aim to continue to develop the program with many new activities and are always looking to get the kids involved in the room itself and activities provided.
