

FAMILY HISTORY

This term we are investigating our family history. In order to gather information that we need, we need your help! On the other side of this page there is a family tree. We would like parents to assist their child in filling this out. They are to draw the members of their family in the circles on the tree.

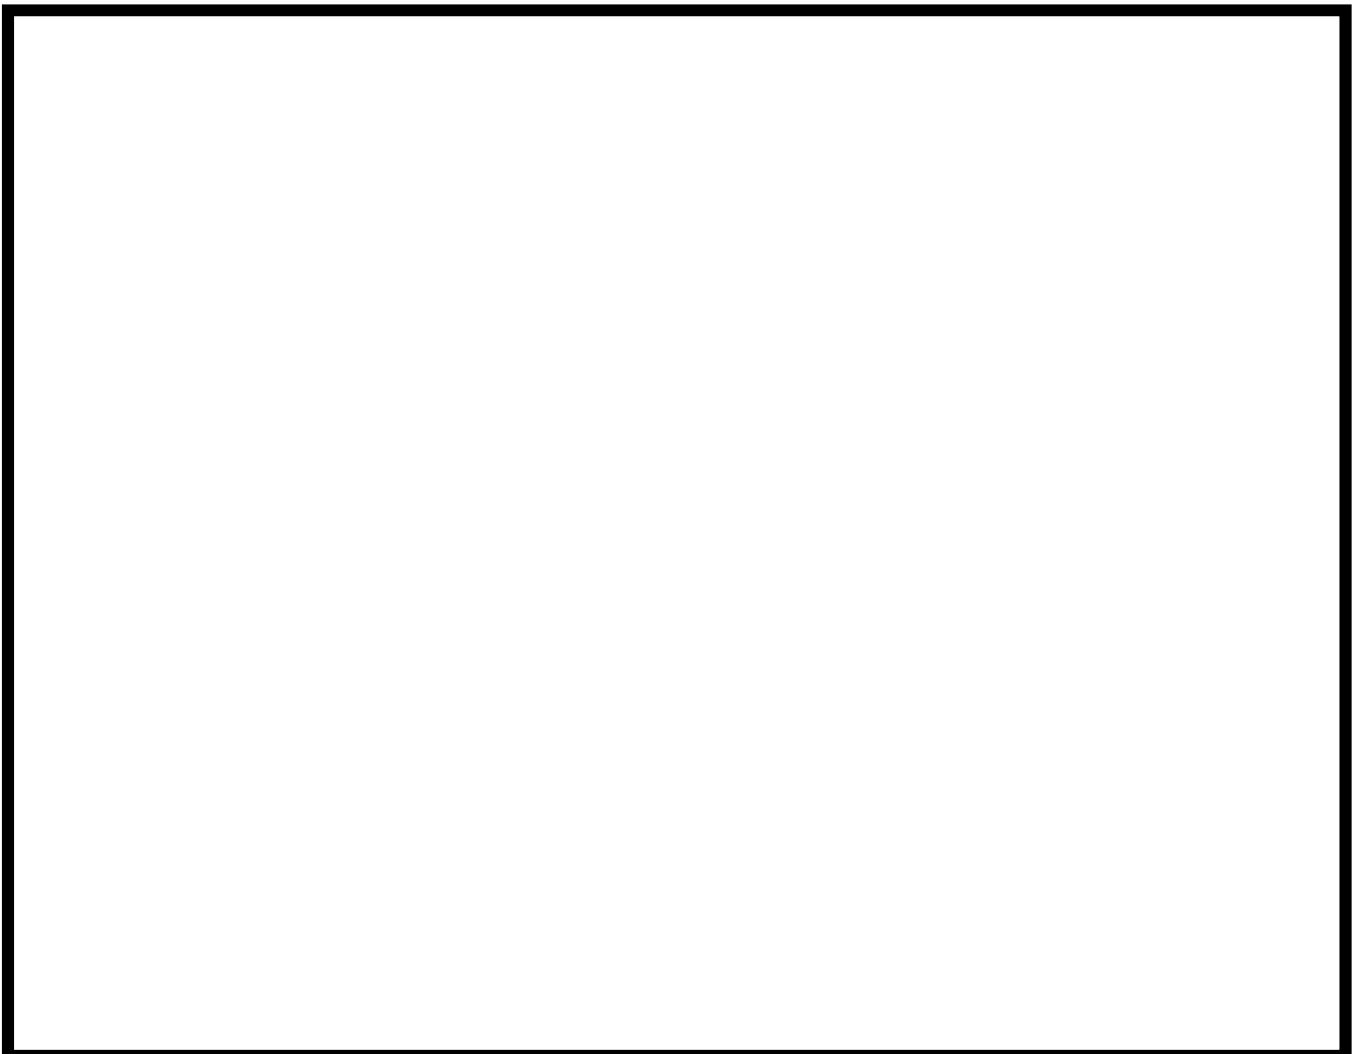

They will use this information to complete some learning activities in class.

We are trying to build awareness that the past was different to the present. It would be fantastic if your child could have a conversation with yourself or your child's grandparents regarding what life was like in the past compared to the present. Below are some questions or topics you might like to discuss:

- Where were you born?
- What Primary School did you go to?
- What was your favourite toy growing up?
 - What did you do for fun?
- What technology did you have growing up?

One thing I found interesting about the past.

Please get your child to draw a picture in the box below and return to your child's classroom teacher.

A large, empty rectangular box with a thick black border, intended for a child to draw a picture related to their family history.
