Semester 1 Student Reports

Dear parents and carers,

At our school, we value the importance of involving students and their parents/carers in learning. This process includes providing written reports on student learning and levels of achievement.

While our school has continued to deliver its teaching and learning program and monitor the achievement and progress of each student, there have been some unprecedented changes to our usual teaching and learning program and reporting structure.

When you receive your child's end of semester report you will notice significant changes to the format from previous semesters. This is because the Department of Education and Training (DET) has adjusted the expectations of Student Reports for Semester 1 in recognition of the transition to remote and flexible learning during Term 2.

Your child's report for this semester includes:

- descriptions of the areas of the Victorian Curriculum taught including English, Mathematics, Visual Arts, Music, Physical Education and Italian
- teacher comments regarding student learning achievement, attitude to learning and strengths.
- a teacher comment on how the student has adjusted to the remote and flexible learning environment.

This student report does not include the usual teacher judgements and five-point scale due to the unprecedented changes to our program introduced because of COVID-19. We will report on these aspects at the end of the year.

We trust that this report gives some important insights into your child's learning for Semester 1 of 2020 and will provide a focus for discussions with your child's teacher in Term 3.

This year has seen unparalleled challenges and changes. I recognise your significant contribution as learning partners during the remote and flexible learning period and I thank you for your valued and continuing support throughout the transition back to onsite schooling.
